**Sub:-Six Monthly Report On Implementation Of Environmental Measures For The Period
From March'2025 to Sept'2025 In respect of EC of Cluster-XVII Group of Mines Of
BCCL.**

Dear Sir,

Enclosed please find herewith the six monthly reports on implementation of environmental protection measure for the period from March 2025 to September 2025 in respect of Cluster-XVII group of mines of BCCL.

Hope you will find the same in order.

Yours Faithfully

General Manager
Cluster XVII, CV Area

PROGRESSIVE COMPLIANCE OF EC CONDITIONS OF CLUSTER- XVII

EC order no- J-11015/373/2013-IA.II (M) Dated 01.02.2021

Up to Sept'2025

Sl. No.	Conditions	Compliance Status															
	Specific Conditions																
1.	i) EAC recommended for an amount of Rs 5375.00 lakhs towards Remediation plan and Natural and Community Resource Augmentation plan to be spent within a span of three years. The details are given below: <table><tr><th>Sl. No.</th><th>Head</th><th>Amount (in Rs. Lakhs)</th></tr><tr><td>1.</td><td>Remediation Plan</td><td>4425</td></tr><tr><td>2.</td><td>Natural Resource Augmentation Plan</td><td>100</td></tr><tr><td>3.</td><td>Community Resource Augmentation Plan</td><td>850</td></tr><tr><td colspan="2">Total</td><td>5375</td></tr></table>	Sl. No.	Head	Amount (in Rs. Lakhs)	1.	Remediation Plan	4425	2.	Natural Resource Augmentation Plan	100	3.	Community Resource Augmentation Plan	850	Total		5375	Mine operation was suspended from October 2021 to November 2024. From 18 November 2024 the mine became re-operational. At present, work orders amounting to Rs. 27 crores (approx.) have already been issued and works are at various stages of implementation. Application for amendment in EC was applied for Timeline Extension of NCRAP & CER. The EAC has duly accepted our proposal and provided the timeline extension of further two years for completion of works under NCRAP and CER in the Revised EC (i.e. Amended EC), Revised EC has been attached as Annexure 1.
Sl. No.	Head	Amount (in Rs. Lakhs)															
1.	Remediation Plan	4425															
2.	Natural Resource Augmentation Plan	100															
3.	Community Resource Augmentation Plan	850															
Total		5375															
2.	ii) Total budgetary provision with respect to Remediation plan and Natural & Community Resource Augmentation plan is Rs. 5375.00 lakhs. Therefore, project proponent shall be required to submit a bank guarantee of an amount of Rs. 5375.00 lakhs towards Remediation plan and Natural and Community Resource Augmentation plan with the SPCB prior to the grant of EC.	Bank Guarantee was already submitted to WBPCB. Application for amendment in EC was applied for Timeline Extension of NCRAP & CER. The EAC has duly accepted our proposal and provided the timeline extension of further two years for completion of works under NCRAP and CER in the Revised EC (i.e. Amended EC), Revised EC has been attached as Annexure 1.															
3.	iii) Remediation plan shall be completed in 3 years whereas bank guarantee shall be for 5 years. The bank guarantee will be released after successful implementation of the remediation plan and Natural and Community Resource Augmentation Plan, and after the recommendation by regional office of the Ministry, Expert Appraisal Committee and approval of the Regulatory Authority.	At present, work orders amounting to Rs. 27 crores (approx.) have already been issued and works are at various stages of implementation. Meanwhile Application for amendment in EC was applied for Timeline Extension of NCRAP & CER. The EAC has duly accepted our proposal and provided the timeline extension of further two years for completion of works under NCRAP and CER in the Revised EC (i.e. Amended EC), Revised EC has been enclosed as Annexure 1.															
4.	iv) Fund allocation for Corporate Environment Responsibility (CER) of Rs. 1532 lakhs/- to be implemented as per the details submitted to the Ministry and to be spent in three years.	At present, work orders amounting to Rs. 27 crores (approx.) have already been issued and works are at various stages of implementation. Meanwhile Application for amendment in EC was applied for Timeline Extension of NCRAP & CER. The EAC has duly accepted our proposal and provided the timeline extension of further two years for completion of works under NCRAP and CER in the Revised EC (i.e. Amended EC), Revised EC has been enclosed as Annexure 1.															
5.	v) Approval/permission of the CGWA/SGWA shall	Application for ground water withdrawal NOC to West															

	be obtained before drawing ground water for the project activities. State Pollution Control Board (SPCB) concerned shall not issue Consent to Operate (CTO) till the project proponent obtains such permission.	Bengal State Water Investigation Authority (SWID) has been already submitted and requisite payment had been made to SWID. Copy of application and payment receipt for the same is enclosed as Annexure 3 .
6.	vi) The Environmental Clearance will not be operational till such time the Project Proponent complies with all the statutory requirements and judgment of Hon'ble Supreme Court dated the 2nd August 2017 in Writ Petition (Civil) No. 114 of 2014 in the matter of Common Cause versus Union of India and Ors.	Being followed.
7.	vii) State Government concerned shall ensure that mining operation shall not commence till the entire compensation levied, if any, for illegal mining paid by the Project Proponent through their respective Department of Mining & Geology in strict Compliance of judgment of Hon'ble Supreme Court dated the 2nd August 2017 in Writ Petition (Civil) No. 114 of 2014 in the matter of Common Cause versus Union of India and Ors.	Being followed.
8.	viii) Solid waste management as per SWM rules 2016 shall be complied within their colony.	Being complied in consultation with Kulti Municipal Corporation as well as Asansol Municipal Corporation.
9.	ix) Effective dust suppression system shall be adopted at the transportation site and in the other parts of the mining lease to arrest the fugitive dust emission.	The Operation from mine was suspended from October 2021 to November 2024. From 18 November 2024 mine became re-operational. Mobile tankers is being used for sprinkling purpose on transportation roads.
10.	x) Project proponent shall take necessary other clearances/permissions under various Acts and Rules if any, from the respective authorities /department.	The Operation from mine was suspended from October 2021 to November 2024. From 18 November 2024 the mine became re-operational. As per mine closure plan mine closure cost is deposited to the Escrow account as per the mine closure plan approved by CCO.
11.	xi) The mining lease holder shall, after ceasing mining operations, under take re-grassing the mining area and any other area which may have been disturbed due to their mining activities and restore the land to condition which is fit for growth of fodder, flora and fauna etc.	Final mine closure plan will be implemented after ceasing of mining operations. Final mine closure plan included the Grassing of mining area and other activities which will restore the Land to pre mining conditions upto maximum level.
12.	xii) Greenbelt development/Bio-diversity Conservation Plan shall be implemented to mitigate the impacts as predicted in the EIA/EMP.	Greenbelt and Bio-Diversity conservation plan is being progressively implemented. 6609 nos. of saplings has been planted along the NH-2 (Currently NH-19) from Kalyaneshwari Check post to Rampur Motor vehicle Checkpost. The work had been completed in FY 2024-25 after taking NOC from NHAI with the help of Green Project Wings (West Bengal Forest Development Corporation Ltd.). The NOC from NHAI, work order copy and completion certificate has been attached

		here as Annexure 3A.
	(A) Statutory Compliance.	
13.	i) The Project proponent shall obtain Forest Clearance under the provisions of Forest (Conservation) Act, 1986, in case of the diversion of forest land for non-forest purpose involved in the project.	There is no Forest Land under the Lease hold of the project. Therefore no Forest Clearance is Required.
14.	ii) The project proponent shall obtain clearance from the National Board for Wildlife, if applicable.	No Wildlife Clearance is required from WII as there is no such wildlife sanctuary or wildlife conservation program implemented or to be implemented within the leasehold area of the project.
15.	iii) The project proponent shall prepare a Site-Specific Conservation Plan/ Wildlife Management Plan and approved by the chief Wildlife Warden. The recommendations of the approved Site-Specific conservation plan/Wildlife Management plan shall be implementation report shall be furnished along with the six-monthly compliance report (in case of the presence of schedule-I species in the study area).	Not Required.
16.	iv) The project proponent shall obtain Consent to Establish/Operate under the provisions of Air (Prevention & control of Pollution) Act. 1974 from the concerned State Control of Pollution Board/Committee.	Consent to Establish (CTE) & Consent to Operate (CTO) from West Bengal Pollution Control Board (WBPCB) has been taken. Copy of The same is enclosed herewith as Annexure 4 & Annexure 5 respectively.
17.	v) The project proponent shall obtain the necessary permission from the Central Ground Water Authority.	Application for ground water withdrawal NOC to West Bengal (State Water Investigation Directorate) SWID has been already applied. And requisite payment made Copy (of application and payment receipt) for the same is enclosed as Annexure 3.
18.	vi) Solid /hazardous waste generated in the mines needs to be addressed in accordance to the Solid Waste Management Rules, 2016 /Hazardous& other Waste Management Rules, 2016.	Solid/Hazardous waste generated in the mines is being handled as per Solid Waste Management Rules, 2016 /Hazardous & other Waste Management Rules, 2016.
	(B) Air quality monitoring and preservation.	
19.	i) Continuous ambient air quality monitoring stations as prescribed in the statute be established in the core zone as well as in the buffer zone monitoring of pollutants, namely PM ₁₀ , PM _{2.5} , SO ₂ and NO _x . Location of the stations shall be decided based on the meteorological data, topographical features and environmentally and ecologically sensitive targets in consultation with the State Pollution Control Board. Online ambient air quality	Ambient Air Quality monitoring is being done fortnightly by CMPDIL. Copy of Report for the Month of Sept'2025 is Enclosed herewith as Annexure 7. Procurement for CAAQMS is being done at HQ level. Online bidding has been done for 02 no.s of CAAQMS for CV Area out of which one is to be installed at Cluster XVII. Monitoring of heavy metals is being done by CMPDIL

	monitoring stations may also be installed in addition to the regular monitoring stations as per the requirement and/or in consultation with the SPCB. Monitoring of heavy metals such as Hg, As, Ni, Cd, Cr, etc to be carried out at least once in six months.	once in six months. Copy of monitoring report for the half year ending in the month of June'2025 is attached herewith as Annexure 12.
20.	ii) The Ambient Air Quality monitoring in the core zone shall be carried out to ensure the Coal Industry Standards notified vide GSR 742 (E) dated 25 th September, 2000 and as amended from time to time by the Central Pollution Control Board. Data on ambient air quality and heavy metal such as Hg, As, Ni, Cd, Cr and other monitoring data shall be regularly reported to the Ministry/Regional Office to the CPCB/SPCB.	Ambient Air Quality monitoring is being done fortnightly by CMPDIL. Copy of Report for the Month of Sept'2025 is Enclosed herewith as Annexure 7. Monitoring of heavy metals is being done by CMPDIL once in six months. Copy of monitoring report for the half year ending in the month of June'2025 is attached herewith as Annexure 12.
21.	iii) Transportation of coal, to the extent permitted by road, shall be carried out by covered trucks/conveyors, Effective control measures such as regular water/mist sprinkling/rain gun etc shall be carried out in critical areas prone to air pollution (with higher values of PM10/PM2.5) such as haul road, loading/unloading and transfer points . Fugitive dust emission from all sources shall be controlled regularly. It shall be ensured that the Ambient Air Quality parameters conform to the norms prescribed by the Central / State Pollution Control Board.	Transportation of coal is being done by tarpaulin covered trucks. Further to arrest dust generation from Transportation road mobile tankers is being used for sprinkling on road. Proposals for installation of Fixed Sprinkler/Rain Gun at loading and Unloading sites are underway. Efforts are being made to conform the Ambient Air Quality parameters with prescribe norms of SPCB/CPCB. Report for the month of Sept'2025 is Enclosed herewith as Annexure 7.
22.	iv) The transportation of coal shall be carried out as per the provisions and route envisaged in the approved Mining Plan or environment monitoring plan. Transportation of the coal through the existing road passing through any village shall be avoided, In case, it is proposed to construct a 'bypass' road, it should be so constructed so that the impact of sound, dust and accidents could be appropriately mitigated.	Transportation of Coal is being carried out on the same route as envisaged in the Approved Mining Plan of Kalyaneshwari OCP. Transportation route doesn't pass through any village.
23.	v) Vehicular emissions shall be kept under control and regularly monitored. All the vehicles engaged in mining and allied activities shall operate only after obtaining 'PUC' certificate from the authorized pollution testing centers.	It has been ensured to have valid PUC for the entire Vehicle involved in mining operation.
24.	vi) Coal stock pile/crusher/feeder and breaker material transfer points shall invariably be provided with dust suppression system. Belt-conveyors shall be fully covered to avoid air borne dust. Side cladding all along the conveyer gantry should be made to avoid air borne dust. Drills shall be wet operated or fitted with dust extractors.	Proposal for installation of Fixed Sprinkler/Rain Gun at all loading and Unloading Sites such as Coal Stockyard/Crusher/Feeder Breaker is being prepared. Drilling Machines used in Mining area are fitted with Dust Control System for minimizing fugitive emission from drilling process is deployed in Mine.
25.	vii) Coal handling plant shall be operated with effective control measure w.r.t. Various	CHP is being operated with effective control measures.

	environmental parameters. Environmental friendly sustainable technology should be implemented for mitigating such parameters.	
	(C) Water quality monitoring and preservation	
26.	i) The effluent discharge (mine waste water, workshop effluent) shall be monitored in terms of the parameters notified under the Water Act, 1974 Coal Industry Standards vide GSR 742 (E) dated 25 th September, 2000 and as amended from time by the Central Pollution Control Board.	The effluent discharge from Mine is fortnightly monitored by CMPDIL. Report for the Month of Sept'2025 is Enclosed as Annexure 8.
27.	ii) The Monitoring data shall be uploaded on the company's website and displayed at project site at a suitable location. The circular No. J-2001/1/2006-1A.11 (M) dated 25 th May, 2009 issued by Ministry of Environment, Forest and Climate Change shall also be referred on this regard for its compliance.	Monitoring Data as submitted by CMPDIL is being uploaded regularly on BCCL website of www.BCCLWEB.in .
28.	iii) Regular monitoring of ground water level and quality shall be carried out in and around the mine lease area by established a network of existing wells and constructing new peizometers during the mining operations. The monitoring of ground water levels shall be carried out four times a year i.e. Pre-monsoon, monsoon, post-monsoon and winter. The ground water quality shall be monitored once a year, and the data thus collected shall be sent regularly to MOEFCC/RO.	Ground Water Level and Quality is being carried out by CMPDIL. Water quality report for quarter ending Dec'2024 has been attached as Annexure 8. Proposal for installation of Peizometers are under process at BCCL HQ level.
29.	iv) Monitoring of water quality upstream and downstream of water bodies shall be carried out once in six months and record of monitoring data shall be maintained and submitted to the Ministry of Environment ,Forest and Climate Change/Regional Office.	Monitoring water quality of Barakar River at Upstream and Downstream points are being done by CMPDIL in every Quarter. Copy of the same is enclosed as Annexure 8.
30.	v) Ground water, excluding mine water, shall not be used for mining operations Rainwater harvesting shall be implemented for conservation and augmentation of ground water resources.	Only Mine water is being used for Mining operations. Further old quarries are used as recharge pit for ground water. Proposal for Rainwater Harvesting arrangements are being prepared for Colonies as well as for Office buildings.
31.	vi) Catch and/ or garland drains and siltation ponds in adequate numbers and appropriate size shall be constructed around the mine working, coal heaps & OB dumps to prevent runoff water and flow of sediments directly into the river and water bodies. Further, dump material shall be properly consolidated/compacted and accumulation of water over dumps shall be avoided by providing adequate channels for flow of silt	Proposals for construction of Toe-Wall & Garland Drains around the OB dump & Coal Dump is being Prepared. OB dumps are suitably compacted to avoid any water logging on the top of them. Mine water is discharged into natural settling ponds for siltation then it is allowed to go to river through nalas. Proposal for construction of Settling pond is

	into the drains. The drains/ponds so constructed shall be regularly de-silted particularly before onset of monsoon and maintained properly. Dump capacity should provide adequate retention period to allow proper settling of silt material. The water so collected in the dump shall be utilized for suppression and green belt development and other industrial use. Dimension of the retaining wall constructed, if any, at toe of the OB dumps within the mine to check run-off the and siltation should be based on the rainfall data .The plantation of native species to be made between toe of the dump and adjacent field/habitation/ water bodies.	underway.
32.	vii) Adequate groundwater recharge measure shall be taken up for augmentation of ground water. The project authorities shall meet water requirement of nearby village(s) after due treatment conforming to the specific requirement (standards).	Adequate groundwater measures are being taken for augmentation of ground water such as pit recharging, Rainwater harvesting, Non-use of ground water for Mining Purpose etc. Pit water after adequate filtration is being provided to local villages.
33.	viii) Industrial waste water generated from CHP, work shop and other waste water , shall be properly collected and treated so as to conform to the standards prescribed under Water Act 1974 and Environment (Protection)Act , 1986 and the Rules made there , and as amended from time to time . Adequate ETP/STP needs to be provided.	Being Complied.
34.	ix) The water pumped out from the mine, after siltation, shall be utilized for industrial purpose viz. watering the mine area, roads, green belt development etc. The drains shall be regularly de-silted particularly after monsoon and maintained properly.	Only Mine water pumped out of mining pit is being used for mining Purposes. Drains are regularly cleaned for proper siltation of Mine Water.
35.	x) The surface drainage plan including surface water conservation plan for the area of influence affected by the said mining operation, considering the presence of river/rivulet/pond/lake etc, shall be prepared and implemented by the project proponent. The surface drainage plan and/or any diversion of natural water course shall be as per the approved Mining Plan/EIA/EMP report and with due approval of the concerned State/Gol Authority. The construction of embankment to prevent any danger against inrush of surface water into the mine should be as per the approved Mining Plan and as per the permission of DGMS or any other authority as prescribed by the law.	Surface Drainage plan has been prepared by CMPDIL and will be Progressively complied. Comprehensive Ground Water Hydrological Report has been prepared by CMPDIL the same has been attached as Annexure 9A & 9B.
36.	xi) The project proponent shall take all	Agreed to Comply.

	precautionary measure to ensure riverine/riparian ecosystem in and around the coal mine up to a distance of 5 km. A riverine/riparian ecosystem conservation and management plan should be prepared and implemented in consultation with the irrigation / water resource department in the state government.	
	(D) Noise and Vibration Monitoring & Prevention.	
37.	i) Adequate measure shall be taken for control of noise levels as per Noise pollution Rules, 2016 in the work environment. Worker engaged in blasting and drilling operations, operation of HEMM, etc shall be provided with the personal protective equipment (PPE) like earplugs/muffs in conformity with the prescribed norms and guidelines in this regard. Adequate awareness programme for users to be conducted .Progress in usage of such accessories to be monitored.	To control noise levels in the work environment vehicles are regularly maintained. All the workers engaged in noisy operations are provided with the Ear plugs/muffs.
38.	ii) Controlled blasting techniques shall be practiced in order to mitigate ground vibration, fly rocks, noise and air blast etc. as per the guidelines prescribed by DGMS.	The noise and vibration during blasting operations is controlled by using Electronic Detonators.
39.	iii) The noise level survey shall be carried out as per the prescribed guideline to assess noise exposure of the work man at vulnerable points in the mine premises , and report in this regard shall be submitted to the Ministry/ RO on six-monthly basis.	Monitoring work is being done by CMPDIL which has a laboratory recognized under EPA rules 1986. Noise level is being monitored Quarterly by CMPDI copy of monitoring report for quarter ending Sept'2025 is attached herewith as Annexure 7.
	(E) Mining Plan.	
40.	i) Mining shall be carried out under strict adherence to provisions of the Mines Act 1952 and subordinate to the Ministry/RO on six monthly basis.	It is being followed. Mining is being done as per the statute and DGMS guidelines. The six monthly compliance report is being uploaded on PARIVESH 2.0
41.	ii) Mining shall be carried out under the approved mining plan (including Mine Closure plan) abiding by mining laws related to coal mining and relevant circulars issued by Directorate General of Mines Safety (DGMS).	It is being followed. Mining is being done as per the statute and DGMS guidelines.
42.	iii) No mining shall be carried out in forest land without obtaining Forestry Clearance as per Forest (Conservation) Act, 1980.	No forest land is under mining lease of Cluster XVII.
43.	iv) Efforts should be made to reduce energy and fuel consumption by conservation, efficiency improvements and use renewable energy.	Efforts are being made for reducing fuel consumption and maximum utilization of renewable energy. Solar panels had been installed at the rooftop of CV Area within Cluster XVII, work order for the same has been attached as Annexure 10.
	(F) Land Reclamation.	
44.	i) Digital Survey of entire lease hold area /core	Work order has been given to CMPDIL for digital

	zone using satellite Remote Sensing survey shall be carried out at least once in three years for monitoring land use pattern and report in 1:50,000 scale or as notified by Ministry of Environment , Forest and Climate Change (MOEFCC) from time to time shall be submitted to MOEFCC/Regional Office (RO).	survey of Mining lease hold of Cluster XVII through Satellite Remote Sensing.
45.	ii) The final mine void depth should preferably be as per the approved Mine closure Plan, and in case it exceeds 40 m, adequate engineering interventions shall be provided for sustenance of aquatic life therein. The remaining area shall be backfilled and covered with thick and alive top soil .Post-mining land be rendered useable for agricultural/forestry purposes and shall be delivered .Further action will be treated as specified in the guidelines for preparation of Mine Closure Plan issued by the Ministry of Coal dated 27th August, 2009 and subsequent amendments if any.	Final mine closure plan will be implemented after ceasing of mining operations.
46.	iii) The entire excavated area, backfilling, external OB dumping (including top soil) and forestation plan shall be in conformity with the “during mining”/ “post mining” land use pattern, which is an integral part of approved Mining Plan and the EIA/EMP submitted to this Ministry. Progressive compliance status vis-à-vis the post mining land use pattern shall be submitted to the MOEFCC/RO.	Will be progressively implemented as per Approved Mining Plan.
47.	iv) Fly ash shall be used for external dump of overburden , backfilling or stowing of mine as per provisions contained in closure (i) and (ii) of subparagraph (8) of ash notification issued vide SO 2804 (E) dated 3rd November , 2009 as amended from time to time. Efforts shall be made to utilize gypsum generated from Flue Gas Desulfurization (FGD), if any, along with fly ash for external dump of overburden, backfilling of mines. Compliance report shall be submitted to Regional office of MOEF&CC, CPCB and SPCB.	There is no Fly Ash generation in Mines of Cluster XVII.
48.	v) Further, it may be ensure that as per the time schedule specified in mine closure plan it should remain live till the point of utilization. The top soil shall temporarily be stored at earmarked site(s) only and shall not be kept unutilized .The top soil shall be use for land reclamation and plantation purposes. Active OB dumps shall be stabilized with native grass species to prevent erosion and surface runoff. The other overburden dump shall be vegetated with native grass species. The excavated area shall be backfilled and afforested in line with	Progressive Mine closure activities are being done as per approved Mine Closure Plan of Kalyaneshwari OCP. Top Soil is being Kept separately on earmarked site. Top soil will be used for reclamation and Plantation purpose as and when required. Active OB dumps are progressively stabilized with Grass carpeting of native grass seeds.

	the approved Mine Closure Plan. Monitoring and management of rehabilitated areas shall continue until the vegetation becomes self-sustaining. Compliance status shall be submitted to the Ministry of Environment, Forest and Climate Change/ Regional Office.	
49.	vi) The project proponent shall make necessary alternative arrangements, if grazing land is involved in core zone, in consultation with the state government to provide alternate areas for livestock grazing, if any. In this context, the project proponents shall implement the directions of Hon'ble Supreme Court with regard to acquiring grazing land.	Will be progressively complied.
	(G) Green Belt.	
50.	i) The project proponents shall take all precautionary measures during mining operation for conservation and protection of endangered/ endemic flora/fauna, if any, spotted in the study area. The action plan in this regard, if any, shall be prepared and implemented in consultation with the state Forest and wildlife Department.	No endangered/Endemic Flora/Fauna have been spotted while studying by CMPDIL for Preparation of EIA/EMP of Cluster XVII. However, if any endangered/Endemic Flora/Fauna will be spotted in future, the action plan for conservation of the same will be prepared with consultation of WII.
51.	ii) Greenbelt consisting of 3-tier plantation of width not less than 7.5 m shall be developed all along the mine lease area as soon as possible. The green belt comprising a mix of native species (endemic species should be given priority) shall be developed all along the major/ coal transportation roads.	Greenbelt and Bio-Diversity conservation plan is being progressively implemented. 6609 nos. of saplings has been planted along the NH-2 (Currently NH 19) from Kalyaneshwari Check post to Rampur Motor vehicle Checkpost that forms the boundary of leasehold. The work had been completed in FY 2024-25 after taking NOC from NHAI with the help of Green Project Wings (West Bengal Forest Development Corporation Ltd.). The NOC from NHAI, work order copy and completion certificate has been attached here as Annexure 3A
	(H) Public Hearing and Human Health Issues.	
52.	i) Adequate illumination shall be ensured in all mine locations (as per DGMS standards) and monitored weekly. The report on the same shall be submitted to this ministry & it's RO on six- monthly basis.	Regular illumination survey is done by safety department of the mine in Consultation with DGMS.
53.	ii) The project proponents shall undertake occupational health survey for initial and periodical medical examination of the personnel engaged in the project and maintain records accordingly as per the provisions of the Mines Rules, 1955 and DGMS circulars. Besides regular periodic health check-up, 20% of the personnel identified from workforce engaged in active mining operation shall be subjected to	Initial Medical Examination (IME) for outsourced personnel and Periodical Medical Examination (PME) of all the BCCL personnel are carried out as per the Statutes and Director General of Mines Safety (DGMS) guidelines. The PME is conducted for each personnel once in 3 years. Records of IME & PME are also being maintained. For Cluster XVII a total of 17 PME's were held for the month of Sept'25. Further a total cumulative target

	health check-up for occupational diseases and hearing impairment, if any, as amended from time to time.	from Jan'25 to Sept'25 was 522, and achieved cumulative target is 477 which is 91% of the target value. Signed copy of the same has been attached as Annexure 11.
54.	iii) Personnel (including outsourced employees) working in core zone shall wear protective respiratory devices and shall also be provided with adequate training and information on safety and health aspects.	Dust is suppressed at source by water sprinkling. Dust masks are provided to persons working in dusty areas. Training on safety & health is imparted at regular intervals (compulsorily once in 3 years) at VTCs. A total of 57 training programs held during financial year 2025-26 (Till September 2025) at Cluster XVII.
55.	iv) Implementation of the action plan on the issues raised during the public hearing shall be ensured. The project proponent shall undertake all the task/measures as per the action plan submitted with budgetary provisions during the public hearing. Land ousters shall be compensated as per the norms laid down in the R&R policy of company/ State Govt./Central Government, as applicable.	Issue raised in Public Hearing will be Progressively complied. Land Ousters are compensated as per approved R&R policy of CIL.
56.	v) The project proponent shall follow the mitigation measure provided in this Ministry's OM No.Z-11013/5712014-IA.II (M) dated 29 th October, 2014, 'Impact mining activities on habitations-issues related to the mining projects wherein habitations and villages are the part of mine lease areas or habitations and villages are surrounded by mine lease area'.	Being Progressively Complied in line with Ministry OM.
(I)Corporate Environment Responsibility		
57.	i) The project proponent shall comply with the provisions contained in this Ministry's OM vide F.NO. 22-65/2017-IA.III dated 1 st May 2018, as applicable, regarding Corporate Environment Responsibility.	Detailed CER activities with Budget Provision has been laid down and included in EMP of Cluster XVII.
58.	ii) The company shall have a well laid down environmental policy duly approved by the Board of directors.
