Date:- 19.04.2017

To the Director

Ministry of Environment, Forest & Climate Change

Regional Office (ECZ), Bungalow No. A-2

Shyamli Colony

Ranchi - 834002

Sub: six monthly report for the period from 1st October 2016 to 31st March 2017 on Compliance to Environmental Clearance from MoEF, Govt of India for Cluster – XII of Kapuria UG Project, M/s Bharat Coking Coal Limited.

Dear Sir

Enclosed herewith please find the six monthly report on Compliance to Environmental Clearance from MoEF, Govt of India vide letter no J-11015/184/2012-IA. II(M), dated 10th Dec 2014 for Cluster-XII of Kapuria UG of M/s Bharat Coking Coal Limited for your kind perusal and further needful action please. It is also to bring to your kind notice that the project has been delayed due to the delay in physical possession of land. The work was just started but again stopped due to villagers protest.

Project Officer

Encl: as above.

Six Monthly Compliance Report of EC order of Cluster-XII for the period from 1st October 2016 to 31ST March 2017

SI No	Specific Condition	Action
1	The maximum production from the mine at any given time shall not exceed the limit as prescribed in the EC.	Project has not started yet. Land acquisition is under process. This condition shall be complied as the production starts.
II	A separate team for subsidence monitoring and surface mitigation measures be constituted and continuous monitoring and mitigation measures be carried out.	Shall be complied. Project is under construction phase.
111	The validity of EC is for the life of the mine or as specified in the EIA notification, 2006, whichever is earlier.	Agreed.
IV	The coal transportation from the mine to the siding shall be by conveyor belt and coal transportation from siding to washery shall be by rail.	Shall be complied.
V	Piezometers be installed upto the depth of mining to facilitate monitoring of ground water.	The work of monitoring of ground water is being carried out by CMPDI.
VI	Water sprinkler be used for coal dust suppression along the haul road.	Shall be complied.
VII	Thick green belt shall be developed around proposed washery within the cluster-XII lease area and plantation shall be undertaken along NH-32.	Shall be complied.
VIII	Subsidence study shall be taken up with reputed scientific agency as per stipulation of DGMS.	Shall be complied.
IX	Various CSR works that will be carried out shall include education, healthcare, water supply etc.	Shall be complied.
x	The project should have ecologist / social scientist to monitor the project.	BCCL is following the roadmap prepared by FRI, Dehradun to restore ecology in the region and conducting the work of ecological restoration in the mined out areas. BCCL has also got facilitated by the guidance of Prof. C R Babu, CEMDE, University of Delhi.
ΧI	Coal produced from the mine will be directly loaded into a CHP at the incline top. From the CHP at incline top, coal will be transported to the proposed Kapuria coal washery linked to the mine by covered conveyor system of length 250m. Washed coal from the washery will be transported by conveyor to the railway siding and loaded into the wagons by CHP.	Shall be complied.
XII	The production shall be within the same mining lease area.	Shall be complied.

XIII	Regular monitoring of subsidence movement on the surface cover and around the working area and impact on natural drainage pattern, water bodies, vegetation, structure, roads and surroundings shall be continued till movement ceases completely. In case of observation of any high rate of subsidence movement, appropriate effective corrective measures shall be taken to avoid loss of life and material. Cracks shall be effectively plugged with ballast and clay soil / suitable material.	Shall be complied.
XIV	If subsidence is found exceeding the permitted limits, the land owners shall be adequately compensated with mutual agreement of the land owners.	Shall be complied.
XV	Mining shall be carried out as per statute at a safe distance from river / nallah falling adjacent to the lease boundary at the time of depillaring, protective bunds and garland drains shall be provided so that no water from the surface enters the subsidence area and the shaft.	Mining shall be done as per DGMS statute.
XVI	Sufficient coal pillars shall be left unextracted around the air shaft (within the subsidence influence area) to protect from any damage due to subsidence, if any.	Shall be complied.
XVII	Solid barriers shall be left below the roads falling within the blocks to any damage to the roads.	Shall be complied.
XVIII	Diversion of land shall be done with approval of the competent authority.	Shall be complied.
XIX	Coal extraction shall be optimized in areas where agriculture production is continuing. Some pillars shall be left below the agricultural land. No depillaring and coal extraction shall be carried out below habitation, HT lines & beneath road, water bodies, railway track.	It will be done as per the statute and DGMS guidelines.
XX	The mined out land should be used for agriculture purpose.	Shall be complied.
XXI	Safety measures and health issues need to be addressed for workers and surrounding villagers.	Shall be complied.
22	Proponent shall implement all the related safety measures with safety equipment	It will be done as per the statute and guidelines of DGMS.

23	At the time of establishing the CHP, it is	Shall be complied.
25	proposed to establish mist spray arrangements	Shall be complied.
	and also enclosing the ground level bunkers up	
1	to the level of gantry.	
24	An afforestation plan to be prepared for	Shall be complied.
24	implementation after stabilization of	Silali be complied.
:	subsidence.	·
25		Shall be complied
25	Water spraying arrangements at loading points	Shall be complied.
	and mist spray arrangements are to be provided.	
26		Shall be complied
20	No additional land, manpower and equipment	Shall be complied.
	and water shall be used for the expansion	
27	project.	Odina alasana alasanili ba farasanlata da a
27	Mine closure activity include sealing of incline	Mine closure plan will be formulated as
	mouth, dismantling of haulage system, cleaning	per the guidelines of Ministry of Coal Gol.
	and afforestation of coal stock area, plantation on barren land and old abandoned mine.	
28	3-tier plantation should be developed 2 Km	Shall be complied
20	•	Shall be complied.
	stretch of road from the mine using native	
20	species.	IA will be done so you FAAD
29	Garland drains around the safety area such as	It will be done as per EMP.
	mine shaft and low lying areas and sump	
	capacity shall be designed keeping 50% safety	
	margin over and above the peak sudden rainfall	
	and maximum discharge in the area adjoining	
	the mine site. Sump capacity shall also provide	
	adequate retention period to allow proper	
30	setting of silt material.	Chall be complied
30	Water sprinkling system shall be provided to	Shall be complied.
	check fugitive emissions from loading	
	operations, conveyor system, haulage roads,	
	transfer points etc. Major approach roads shall	
21	be black topped and properly maintained.	Chall he dans FMD and mine alequate plan
31	A progressive afforestation plan shall be	Shall be done. EMP and mine closure plan
	prepared and implemented over the mine lease	will be followed.
	area acquired and shall include areas under	
	green belt development, areas along roads,	
	infrastructure, along ML boundary and township	
	etc. by planting native species in consultation	
	with the local FDO / agriculture department.	It will be sometical. At mass of CAADDI's
32	Regular monitoring of ground water level and	It will be complied. At present CMPDI is
	quality shall be carried out by establishing a	working to establish a network of
	network of existing wells and construction of	piezometer well.

	new piezometers. The monitoring for quality shall be done four times a year, in May, August, November and January seasons and for quality in May.	
33	Acid water Treatment Plant, volume of water to be treated and disposal of brine should be provided.	Shall be provided if acid water treatment is required.
34	High root density tree species shall be selected and planted over areas likely to be affected by subsidence.	Shall be provided.
35	Monitoring of drinking water should be carried out regularly.	Environmental parameters are being monitored by CMPDI, as per the MoEFCC standards.
36	Sewage treatment plant shall be installed in the township. ETP shall also be provided for workshop and CHP effluents.	Shall be provided.
37	For monitoring land use pattern and for post mining land use, a time series of land use maps, based on satellite imagery (on a scale of 1:5000) of the core zone and buffer zone, from the start of the project till the end of the mine life shall be prepared once in 3 years (for any particular season which is consistent in the time series), and the report submitted to MoEF& CC and its regional Office at Bangalore.	Presently a time series map of vegetation cover in the Jharia coal field is being carried out through CMPDI Ranchi using satellite imagery for every 3 years and is being uploaded on the official website of company. Further CMPDI has been requested to prepare time series of land use maps based on satellite imagery of the core zone and buffer zone in the scale 1:5000.
38	If the water quality parameter such as F, pH, heavy metals etc. exceed the prescribed limits, suitable measures by the proponent be taken to ensure that the local communities are provided alternate source of water for their livelihood.	Shall be done.
39	Medical camps should be organized in the area for regular checkup of workers / villagers / population. Detailed prevalent disease pattern in the area should be documented and detail of medical facilities provided for the same be made available to the MoEF&CC.	It is being done.
40	Mine discharge water outside the ML shall be monitored, particularly for TDS and treated to confirm to prescribed levels before discharge into the natural environment.	Environmental parameters are being monitored by CMPDI, as per the MoEFCC standards.
41	The Company shall put up artificial groundwater recharge measures for augmentation of	It will be provided and regular monitoring shall be done.

	groundwater resource, in case water table shows a decline trend, the project authorities shall meet water requirement of nearby village(s) in case the village wells go dry due to dewatering of mine.	·
42	Besides carrying out regular periodic health checkup of their workers, 10% of the workers identified from workforce engaged in active mining operations shall be subjected to health checkup for occupational diseases and hearing impairment, if any, through an agency such as NIOH, Ahmadabad within a period of one year and the results reported to this ministry and to DGMS.	It will be complied, however, BCCL has engaged NIOH for other cluster of BCCL to health checkup for occupational diseases and hearing impairment and work will be started shortly.
43	The mining in the existing mines should be phased out after expiry of of the current mining lease and after reclamation of mined out area. The operating mines may be analysed and monitored for compliance of conditions, bearing with movement of wildlife and until such time they are closed / phased out.	Agreed, and shall be complied.
44	Project specific CSR for an amount of Rs 5 per tonne of coal production, as per the annual inflation, should be provided for the CSR activities undertaken and the progress made thereon shall be uploaded annually on the company website. Monitoring of the impact of activities under CSR shall be carried out periodically.	It will be done as per the CSR policy of organization.
45	A final Mine Closure Plan along with details of Corpus Fund shall be submitted to the Ministry of Environment, Forest & Climate Change, 5 years in advance of final mine closure for approval.	Shall be complied.
	Corporate Environment Responsibility: a) The company shall have a well laid down Environment policy approved by the Board of Directors. b) The Environment Policy shall prescribe for standard operating procedures to bring into focus any infringement / deviation / violation of the environmental or forest norms /	Bharat Coking Coal Ltd is a subsidiary of Coal India Ltd which is having a well laid down Environmental Policy. It is being complied.

	conditions.	the least of the state of the s
	c) The hierarchical system or	It already exists within the company.
:	Administrative order of the company to	
	deal with environmental issues and for	
	ensuring compliance with the	
	environmental clearance conditions shall	
	be furnished.	It will be done, if any.
	d) To have proper checks and balances, the	
	company shall have a well laid down	
	system of reporting of non – compliance	
	/ violations of environmental norms to	
	the Board of Directors of the company	
	and/or shareholders at large.	
	B. General Conditions :	
1	No change in mining technology and scope of	Shall be complied.
_	working shall be made without prior approval of	
	the MoEFCC.	
2	No change in the calendar plan of production	Shall be complied. However, production
_	for quantum of mineral / coal shall be made.	and calendar plan may vary due to land
		acquisition problem.
3	Four ambient air quality monitoring stations	Shall be complied.
	shall be established in the core zone as well as	Shan be complied.
	in the buffer zone for PM 10, PM2.5, SO2 and	
	NOx monitoring. Location of the stations shall	
	be decided based on the meteorological data,	
	topographical features and environmentally and	
	ecologically sensitive targets in consultation	
	with the State Pollution Control Board.	
	Monitoring of heavy metals such as Hg, As, Ni,	
	Cd, Cr, etc. carried out at least once in six	
	months.	
4	Data on ambient air quality (PM10, PM2.5, SO2	Shall be complied.
	and NOx) and heavy metals such as Hg, As, Ni,	
	Cd, Cr and other monitoring data shall be	
	regularly submitted to the Ministry including its	>
	regional office at Bhubaneshwar and to the	,
	state pollution control board once in six	
	months. Random verification of samples	
	through analysis from independent laboratory	
	recognized under the EPA rules, 1986 shall be	
	furnished as part of compliance report.	
5	Adequate measures shall be taken for control of	Shall be complied.
	noise levels below 85 dBA in the work	
L		

	anning and Marting and I are a second	
	environment. Workers engaged in blasting and	•
	drilling operations, operation of HEMM, etc.	
	shall be provided with ear plug / muffs.	
6	Industrial wastewater (workshop and	Shall be complied.
	wastewater from the mine) shall be properly	ı
	collected, treated so as to confirm to the	I
	standards prescribed under GSR 422 (E) dated	i ·
	19 th May 1993 and 31 st December 1993 or as	İ
	amended from time to time before discharge.	İ
	Oil and grease trap shall be installed before	İ
	discharge of workshop effluents.	
7	Vehicular emissions shall be kept under control	Shall be complied.
	and regularly monitored. Vehicles used for	
	transporting the mineral shall be covered with	
	tarpaulins and optimally loaded.	
8	Monitoring of environmental quality	Environmental parameters are being
	parameters shall be carried out through	monitored as per NAAQS standards which
	establishment of adequate number and type of	is having CSIR laboratory.
	pollution monitoring and analysis equipment in	Monitoring stations have been finalized
	consultation with the State Pollution Control	with Jharkhand State Pollution Control
	Board and data got analyzed through a	Board, Ranchi.
	laboratory recognized under EPA rules, 1986.	
9	Personnel working in dusty areas shall wear	Shall be complied.
	protective respiratory devices and they shall	
	also be provided with adequate training and	
	information on safety and health aspects.	
10	Occupational health surveillance programme of	Shall be complied.
	the workers shall be undertaken periodically to	
	observe any contractions due to exposure to	
	dust and to take corrective measures, if needed	
	and records maintained thereof. The quality of	
	environment due to outsourcing and the health	
	and safety issues should be addressed by the	
	company while outsourcing.	3
11	A separate environmental management cell	A full-fledged environment department
	with suitable qualified personnel shall be set up	headed by a HoD (Environment) along
	under the control of a senior executive, who will	with a suitable qualified multidisciplinary
	report to the head of the company.	team of executives has been established
		in the headquarters. They are trained in
		ecological restoration, sustainable
		development, rainwater harvesting
		methods, etc.
12	The funds earmarked for environmental	Shall be complied.

	protection measures shall be kept in separate account and shall not be diverted for other	
	purpose. Year wise expenditure shall be reported to this ministry and its concerned regional office.	
13	The project authorities shall advertise at least in two local, newspapers widely circulated around the project, one of which shall be in the vernacular language of the locality concerned within seven days of the clearance letter informing that the project has been accorded environmental clearance and a copy of the clearance is available with the State Pollution Control Board and may also be seen at the website of the ministry of Environment & forest.	It is complied.
14	A copy of the environmental clearance shall be marked to concerned panchayat / zilla parishad, Municipal Corporation or Urban local body and local NGO, if any, from whom any suggestion / representation has been received while processing the proposal. A copy of the clearance letter shall also be displayed on the company's website.	It is complied.
15	A copy of the environmental clearance letter shall also be displayed on the website of the concerned State Pollution Control Board. The EC letter shall also be displayed at the regional office, district industry sector and collector's office for 30 days.	It is complied.
16	The clearance letter shall be uploaded on the company's website. The compliance status of the stipulated environmental clearance condition shall also be uploaded by the project authorities on their website and updated once at least in every six months so as to bring the same in public domain. The monitoring data of environmental parameter (air, water, noise and soil) and critical pollutants such as PM10, PM2.5, SO2 and NOx (ambient) and critical sector parameters shall also be displayed at the entrance of the project premises and mine office and in corporate office and on company's website.	It is complied. The monitoring data of environmental parameters to be displayed at project premises shall be complied once the project starts.

17	The project proponent shall submit six monthly compliance report on status of compliance of the stipulated environmental clearance conditions (both in hard copy and email) to the respective regional office of the ministry, respective zonal office of CPCB and the SPCB.	It is being complied.
18	The regional office of this ministry located at	It is being complied.
10		it is being complied.
	Bhubaneswar shall monitor compliance of the	
	stipulated conditions. The project authorities	
	shall extend full co-operation to the office(s)of	
	the regional office by furnishing the requisite	
	data / information /monitoring report.	
19	The Environment Statement for each financial	It is being complied.
	year ending 31 st March in Form – V is mandated	
	to be submitted by the project proponent for	
	the concerned State Pollution Control Board as	
	prescribed under the Environment (Protection)	
	Rules, 1986, as amended subsequently, shall	
	also be uploaded on the company's website	
	along with the status of compliance of EC	
	conditions and shall be sent to the respective	
	regional offices of the MoEF by email.	
	C. Other Conditions by MoEF:	
4	The proponent shall abide by all the	Agreed.
	commitments and recommendations made in	
	the EIA / EMP reports so also during their	
	presentation to the EAC.	
5	The commitment made by the proponent to the	Shall be implemented.
	issue raised during Public Hearing shall be	
	implemented by the proponent.	
6	The proponent is required to obtain all	Agreed.
	necessary clearances / approvals that may be	
	required before the start of the project. The	,2
	ministry or any other competent authority may	
	stipulate any further condition for	
	environmental protection.	
7	The ministry or any other competent authority	Agreed.
	may stipulate any further condition for	
	environmental protection.	
8	The proponent shall set up an Environment	It will be done.
	Audit cell with responsibility and accountability	
	to ensure implementation of all the EC	
	conditions.	
1	1	

9	Concealing factual data or submission of false / fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment	Agreed.
	(Protection) Act, 1986.	
10	The above conditions will be enforced inter-alia, under the provisions of Water (Prevention & Control of Pollution) Act, 1974, the Air (Prevention & Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986 and the Public Liability Insurance Act, 1991 along with their amendments and Rules. The proponent shall ensure to undertake and provide for the costs incurred for taking up remedial measures in case of soil contamination, contamination of ground water and surface water, and occupational and other disease due to the mining operations.	Shall be complied.
11	Any Appeal against this environmental clearance shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.	Agreed.
