To,  
The Director,  
Ministry of Environment & Forest & Climate Change,  
Regional Office, ECZ  
Bungalow No. A-2, Shyamli Colony  
Ranchi – 834002.

**Subject:** Six Monthly report on compliance of Environmental Conditions for the period of April'2016 to September'16 in respect of cluster VIII group of mines of BCCL.

**Ref.:** EC Order No. J-11015/298/2010-IA.(M) Dated 15.02.2013.

Dear Sir,

Please find enclosed herewith six monthly report on compliance of conditions laid down in Environmental Clearance for the period from April'16 to September'16 in respect of cluster VIII group of mines of BCCL.

Thanking you.

Encl: As above alongwith CD.

Yours' faithfully,

  
26/11/16  
General Manager  
Bastacolla Area

Copy to:

1. The Director,  
1 A, Monitoring Cell, Paryavaran Bhawan, CGO Complex, New Delhi-110003
2. The Member Secretary, Jharkhand State Pollution Control Board, H.E.C.,  
Dhurwa, Ranchi-834004 (Jharkhand)
3. The Scientist 'E'/In-Charge, Zonal Office Kolkata, Central Pollution Control Board, Southernd Conclave, Block 502, 5<sup>th</sup> and 6<sup>th</sup> Floors, 1582 Rajdanga Main Road, Kolkata-700 107 (W.B.)
4. The General Manager, Lodna Area
5. The Dy. GM (Environment), BCCL, Koyla Bhawan
6. The Area Manager (Planning), Bastacolla Area
7. The Nodal Officer (Environment), Bastacolla Area

**ENVIRONMENTAL CLEARANCE COMPLIANCE OF CLUSTER-VIII**  
(GRANTED VIDE J-11015/298/2010-IA.II (M) Dated 15.02.2013)  
(From Apl' 2016 to Sep' 2016)

<b>A. Specific Conditions</b>		
<b>Sl. No.</b>	<b>Condition</b>	<b>Compliance/ Action Taken Report</b>
<b>i</b>	The Maximum production shall not exceed beyond that for which environmental clearance has been granted.	<b>It is being complied.</b> The production from the cluster is within the limit for which environmental clearance has been granted. <b>Enclosed as Annexure I.</b>
<b>ii</b>	The road transportation of coal during phase-I should be by mechanically covered trucks. The road used for coal transportation should be developed with avenue plantation on both sides.	<b>It is being complied.</b> No OEM/HEMM Equipment Manufacturer supplies the mechanically covered trucks for the transportation of Coal and OB in India. Possibility is being explored at local level. Presently coal transportation has been done by trucks with tarpaulin cover. Covering of truck has been made mandatory in the transportation contract. Avenue Plantation shall be done after extraction of coal along the roads.
<b>iii</b>	The company must give priority to capacity building both within the company and to the local youth, who are motivated to carry out the work in future.	Company is organizing training and other professional awareness programs for local youths to motivate them to carry out the work in the future. Students from academic institutions like Indian School of Mines and other Engineering Colleges are given training and also allowed to complete their research work with the collaboration of Area HQ and Production Units.
<b>iv</b>	Details of transportation, CSR, R&R and implementation of environmental action plan for each of the 17 clusters should be brought out in a booklet form.	<b>It is being complied.</b> Enclosed along with the compliance report.
<b>v</b>	A study should be initiated to analyse extent of reduction in pollution load every year by reducing road transport.	<b>It is being complied.</b> The study has been initiated and presently going on by the CMPDIL to analyse the extent of reduction in pollution load every year by reducing road transport. Final report is yet to be submitted by CMPDIL. <b>Enclosed as Annexure II.</b>
<b>vi</b>	The expertise available internationally should be utilized for control of fire in Jharia Coalfields and for their reclamation and to further minimize time for fire and subsidence control.	<b>It is under process.</b> Global Expression of Interest had been opened for the international experts/firms/consultants/agencies to deal with coal mine fire in Jharia Coalfield with vision of reclamation, further minimization of spread of fire & subsidence control for which no bidder has qualified to take up the work. <b>Enclosed as Annexure-III.</b>
<b>vii</b>	The abandoned pits and voids should be backfilled with OB and reclaimed with plantation and or may be used for pisciculture.	<b>It is being complied.</b> Backfilling process in abandoned pits and voids are continuously carried out along with the mining operation. Ecological restoration practices is being carried out at the stable OB dumps from where coal has been extracted upto combined seam and grass seed are also sown on the slopes of the dumps for slope stability.

viii	BCCL may consider setting up a separate management structure for implementing environment policy and socio-economic issues and the capacity building required in this regard.	<p>A full-fledged Environment Department, headed by a Dy.GM (Environment) along with a suitable qualified multi-disciplinary team of executives and technicians from Environment, Mining, Civil, etc has been established at Company Headquarters. One Executive in each area has also been nominated as Nodal Officer (Environment) and is also entrusted with the responsibility of compliance and observance of the environmental Acts/Laws including environment protection measures. The activities are monitored on regular basis at Area and at Headquarter levels.</p> <p>The team is very much motivated under the guidance of company's CMD &amp; Director (Technical). Further capacity building at both corporate and operating level is being done regularly.</p>
ix	The locations of monitoring stations in the Jharia Coalfields should be finalized in consultation with the Jharkhand State Pollution Control Board.	<b>It has been complied.</b> The optimum location of monitoring stations in Jharia Coal Field has been identified with the consultant advisory of CMPDIL and also finalized with the permission of Jharkhand State Pollution Control Board. <b>Enclosed as Annexure IV.</b>
x	The smoke / dust emission vary from source to source (fuel wood, coal, fly ash from TPPs, silica from natural dust, etc.) and a source Apportionment Study should be got carried out for the entire Jharia Coalfields.	Tendering for conducting Source Apportionment Study has been done twice but none of the bidders qualified criteria of e-NIT/e-Tender document. This study may be conducted by NEERI under the MoU Signed between NEERI, Nagpur and CIL. <b>Enclosed as Annexure V.</b>
xi	Mineralogical composition study should be undertaken on the composition of the suspended particulate matter (PM <sub>10</sub> and PM <sub>2.5</sub> ) in Jharia Coalfields and also quantified. These studies would help ascertain source and extent of the air pollution, based on which appropriate mitigative measures could be taken.	As it is the part of source apportionment study, tendering for conducting Source Apportionment Study has been done twice but none of the bidders qualified criteria of e-NIT/e-Tender document. This study may be conducted by NEERI under the MoU Signed between NEERI, Nagpur and CIL. <b>Enclosed as Annexure V.</b>
xii	The proponent shall prepare time-series maps of the Jharia Coalfields through NRSA to monitor and prevent fire problems in the Jharia Coalfields by Isothermal mapping/imaging and monitoring temperatures of the coal seams (whether they are close to spontaneous ignition temperatures) and based on which, areas with potential fire problems shall be identified.	<b>It has been complied.</b> NRSC was engaged for preparation of time series maps to monitor and prevent fire problems of Jharia Coalfield by Isothermal mapping/imaging and monitoring temperatures of the coal seams and NRSC has submitted their final report in March'2014 in which the area of fire has been reduced from 9.00 Km <sup>2</sup> to 2.18 Km <sup>2</sup> . Work will be awarded at earliest to NRSC to start the work of fire monitoring from 2016 onwards. <b>Enclosed as Annexure VI.</b>
xiii	Measures to prevent ingress of air (Ventilation) in such areas, to prevent restart fresh/spread fires in other areas including in mines of cluster VIII shall be undertaken.	Action is being taken as per Jharia Master Plan approved by GOI and State Govt. of Jharkhand. Excavation/ Open Cast mining is being done in the fire affected mines to dig out the fiery coal and combustible materials to save the coal from burning and to prevent further spread of the fire. Once the fiery coal is dug-out/excavated there will be no chance of

		further re-starting/spreading of fresh fire into other areas.
<b>xiv</b>	Underground mining should be taken up after completion of reclamation of Opencast mine area after 15 years.	<b>It shall be complied.</b> Underground Mining will be done after extraction of upper seams and subsequently beneath backfilled and reclaimed area.
<b>xv</b>	No mining shall be undertaken where underground fires continue. Measure shall be taken to prevent/check such fire including in old OB dump areas where the fire could start due to presence of coal/shale with sufficient carbon content.	<b>It is being complied.</b> Action is being taken to control, mine fires including old OB dump & areas as specified in Jharia Master Plan and the open cast mining is being done in fire affected areas.
<b>xvi</b>	The rejects of washeries in Cluster –VII should be send to FBC based plant.	<b>Not applicable.</b> Coal washery does not exist in this cluster at present.
<b>xvii</b>	There shall be no external OB dumps. At the end of the mining there shall be no void and the entire mined out area shall be re-vegetated. Areas where opencast mining was carried out and completed shall be reclaimed immediately thereafter.	<b>It shall be complied.</b> Action is being taken as specified in EMP. At the end of the mining, there shall be no void and area will be re-vegetated and reclaimed with the proper reclamation techniques suggested by the experts available across the globe.
<b>xviii</b>	A detailed calendar plan of production with plan for OB dumping and backfilling (for OC mines) and reclamation and final mine closure plan for each mine of cluster-VIII shall be drawn up and implemented.	Mining operation is being done as per approved Calendar plan. Mine closure plan as per the guidelines of Ministry of Coal has been prepared by Central Mine Planning and Design Institute (CMPDI).
<b>xix</b>	The void shall be converted into a water reservoir of a maximum depth of 15-20 m and shall be gently sloped and the upper benches of the reservoir shall be stabilized with plantation and the periphery of the reservoir fenced. The abandoned pits and voids should be backfilled with OB and biologically reclaimed with plantation and or may be used for pisciculture.	<b>It is being complied.</b> Abandoned pits are regularly filled with Over burden. At present extraction of coal by opencast method is being done in overlying seams. If water reservoirs are allowed to be made, then it will be unsafe and difficult for conducting mining in lower seams. The voids will be converted into the water body as specified in EMP at the end of the mining or after extraction of maximum possible coal.
<b>xx</b>	Mining shall be carried out as per statute from the streams/Nalas flowing within the lease and maintaining a safe distance from the Nalas flowing along the lease boundary. A safety barrier of a minimum 60m width shall be maintained along the Nalas/water bodies. The small water bodies in OC shall be protected to the extent feasible and the embankment proposed long water body shall be strengthened with stone pitching.	<b>It is being followed.</b> Mining is being done as per the guidelines and permissions of Directorate General of Mines Safety (DGMS) in accordance with Coal Mines Regulation, 1957. Action for construction of embankment will be done as specified in EMP.
<b>xxi</b>	Active OB dumps near water bodies and rivers should be rehandled for backfilling of abandoned mine voids. However, those which have been biologically reclaimed need not be disturbed.	<b>It is being complied.</b> The OB dumps created earlier are already stabilized and further action has been taken for their eco-restoration work as per Road Map prepared by FRI, Dehradun.

<b>xxii</b>	Thick green belt shall be developed along undisturbed areas, mine boundary and in mine reclamation. During post mining stage, a total of 704.48 Ha area would be reclaimed. The total additional area under plantation would be 345.06ha (67.79 Ha abandoned quarry area, 277.27 Ha active quarry area, 48.55 ha OB dump outside quarry area, 6.30 ha service building/mine infrastructure area/coal dump etc, 108.26 ha green belt around OCP, 196.31 ha barren area), by planting 1761200 plants in 704.48 ha at a total cost Rs. 7202.46 lakhs.	<b>It is being complied.</b> Plantation has been regularly done in undisturbed areas, OB dumps in scientific manner to minimize the effects of pollutants (Particulate Matters, SOx & NOx etc.). Presently Bastacolla area is carrying out the ecological restoration projects in an area of 19.65 Ha. Three Tier plantation has been done in order to protect environment from pollutant and develop a self-sustained ecosystem.
<b>xxiii</b>	The road should be provided with avenue plantation on both side as trees act as sink of carbon and other pollutant.	<b>It shall be complied.</b> Avenue plantation will be done in the leasehold area of cluster VIII group of mines in this year along the roads after extraction of coal. Process of Identification of roads falling under Non-Coal Bearing area is going on. In FY 2016-17 Avenue plantation will be carried out on those roads. Carbon sequestration study may be conducted to assess the impact of plantation to reduce the pollutants.
<b>xxiv</b>	Specific mitigative measures identified for The Jharia Coalfields in the Environmental Action plan prepared for Dhanbad as a Critically polluted area and relevant for Cluster VII shall be implemented.	<b>It is being complied</b> in the name of Dhanbad Action Plan. It has been prepared in consultation with Jharkhand Pollution Control Board for entire BCCL and not on cluster basis. It is being implemented comprehensively for all the mines of BCCL. Some of the salient actions of this cluster are as under: <ol style="list-style-type: none"> <li>1. Covered Truck Transport</li> <li>2. Construction of Pucca Road.</li> <li>3. Construction of water reservoir for mine water utilization</li> <li>4. Plantation. Etc.</li> </ol>
<b>xxv</b>	The locations of monitoring stations in the Jharia Coalfields should be finalized in consultation with the Jharkhand State Pollution Control Board. The Committee stated that smoke/dust emission vary from source to source (fuel wood, coal, fly ash from TPPs, silica from natural dust, etc) and a Source Apportionment Study should be got carried out the entire Jharia Coalfields. Mineralogical composition study should be undertaken on the composition for the suspended particulate matter (PM10 and PM2.5) in Jharia Coalfields and also quantified. These studies would help ascertain source and extent of the air pollution, based on which appropriate mitigative measures could be taken.	<b>It is being complied.</b> Establishment of ambient environment quality monitoring stations has been finalized with the consultation of Jharkhand State Pollution Control Board. Tendering for conducting Source Apportionment Study has been done twice but none of the bidders qualified criteria of e-NIT/e-Tender document. This study may be conducted by NEERI under the MoU Signed between NEERI, Nagpur and CIL. CMPDIL is presently carrying out the ambient environment monitoring work. <b>Enclosed as Annexure IV.</b>

<b>xxvi</b>	No groundwater shall be used for the mining activities. Additional water required, if any, shall be met from mine water or by recycling/reuse of the water from the existing activities and from rainwater harvesting measures. The project authorities shall meet water requirement of nearby village(s) in case the village wells go dry to dewatering of mine.	<b>It is being complied.</b> Mine water is being used for the industrial as well as domestic purpose. Mine water is also utilized by the community after filtration through pressure filters, slow sand filters and rapid sand filters. Proposal for mine water supply to nearby village/community may be taken up in this FY under CSR Policy of the company.
<b>xxvii</b>	Regular monitoring of groundwater level and quality of the study area shall be carried out by establishing a network of existing wells and construction of new peizometers. The monitoring for quantity shall be done four times a year in pre-monsoon (May), monsoon (August), Post-monsoon (November) and Winter (January) seasons and for quality including Arsenic and Fluoride during the month of May. Data, thus collected shall be submitted to the Ministry of Environment & Forest and to the Central Pollution Control Board/SPCB quarterly within one month of monitoring. Rainwater harvesting measures shall be undertaken in case monitoring of water table indicates a declining trend.	<b>It is being complied.</b> CMPDI RI-II is regularly conducting study of groundwater level and quality of areas within Cluster VIII. Groundwater monitoring data has been enclosed as <b>Annexure VII</b> .
<b>xxviii</b>	Mine discharge water shall be treated to meet standards prescribed standards before discharge into natural water courses/agriculture. The quality of the water discharged shall be monitored at the outlet points and proper records maintained thereof and uploaded regularly on the company website.	<b>It is being complied.</b> Mine discharge water is being allowed to settle down in the mine sumps before filtration through various types of filter viz. Pressure Filter, Slow Sand Filter & Rapid Sand Filter. The monitoring of water quality parameters was being done through CMPDIL. Mine water quality data has been enclosed as <b>Annexure XIV</b> .
<b>xxix</b>	ETP shall also be provided for workshop, and CHP, if any. Effluents shall be treated to conform to prescribe standards in case discharge into the natural water course.	<b>It shall be complied.</b> Presently workshops are on Coal bearing area. New workshop at Non Coal Bearing area will be equipped with ETP.
<b>xxx</b>	Regular monitoring of subsidence movement on the surface over and around the working area and impact on natural drainage pattern, water bodies, vegetation, structure, roads, and surroundings shall be continued till movement ceases completely. In case of observation of any high rate of subsidence movement, appropriate effective corrective measures shall be taken to avoid loss of life and material. Cracks shall be effectively plugged with ballast and clayey soil/suitable material.	<b>It is being complied.</b> Regular subsidence monitoring has been done at underground mines. In cluster VIII, presently subsidence monitoring has been done at Bera and Bastacolla Collieries.
<b>xxxi</b>	Sufficient coal pillars shall be left unextracted around the air shaft (within the subsidence influence area) to protect from any damage from subsidence, if any.	<b>It is being complied.</b> Sufficient coal pillars have been left around air shafts as per the statutes and DGMS guidelines.

<b>xxxii</b>	High root density tree species shall be selected and planted over areas likely to be affected by subsidence.	<b>It is being complied.</b> Planation is regularly done in leasehold area of Cluster VIII. This will be done as per the roadmap prepared by Forest Research Institute, Dehradun.
<b>xxxiii</b>	Depression due to subsidence resulting in water accumulating within the low lying areas shall be filled up or drained out by cutting drains.	<b>It is being complied.</b> Time to time depression created by the mining operations have been filled by the locally available material and over burden removed from active quarry.
<b>xxxiv</b>	Solid barriers shall be left below the roads falling within the blocks to avoid any damage to the roads.	<b>It is being followed.</b> Sufficient barriers are left for saving the surface installation and infra structures as per Coal Mines regulation 1957 and DGMS guidelines.
<b>xxxv</b>	No depillaring operation shall be carried out below the township/colony.	<b>It is being complied.</b> Prior permission is always obtained from DGMS for depillaring operations in any of the Cluster VIII group of mines.
<b>xxxvi</b>	The Transportation Plan for conveyor-cum-rail for Cluster-VIII should be dovetailed with Jharia Action Plan. Road transportation of coal during Phase-I should be by mechanically covered trucks, which should be introduced at the earliest. The Plan for conveyor-cum-rail for Cluster-VII should be dovetailed with Jharia Action Plan. The road transpiration of coal during phase-I should be by mechanically covered trucks.	Action has been taken for the transportation plan for conveyor cum rail system of dispatch. CMPDIL, RI-II has been requested to conduct study and prepare the plan in this regard. No OEM/HEMM Equipment Manufacturer supplies the mechanically covered trucks for the transportation of Coal an OB in India. Possibility is being explored at local level. By that time transportation is being done by covering vehicle with tarpaulin cover. <b>Annexure VIII.</b>
<b>xxxvii</b>	A study should be initiated to analyze extent of reduction in pollution load every year by reducing road transport.	<b>It is being complied.</b> The study has been initiated and presently going on by the CMPDIL to analyse the extent of reduction in pollution load every year by reducing road transport. Final report is yet to be submitted by CMPDIL. <b>Enclosed as Annexure II.</b>
<b>xxxviii</b>	R&R of 4959 nos of PAF's involved. They should be rehabilitated at cost of shifting to safe areas at the cost of Rs 29948 Lakhs as per the approved Jharia Action Plan.	Implementation of master plan has already been started through Jharia Rehabilitation and Development Authority (JRDA), Dhanbad and 256 Nos of PAFs (Non-BCCL) have been rehabilitated in FY 2015-16 at well-established Jharia Vihar Township located at Belgoria and other places. <b>Enclosed as Annexure IX.</b>

<b>xxxix</b>	<p>A detailed CSR Action Plan shall be prepared for Cluster VIII group of mines. Specific activities shall be identified for CSR the budget of Rs. 215.5 Lakhs per year @ Rs. 5/T of coal as recurring expenditure. The 265.25 ha of area within Cluster VIII ML existing as waste land and not being acquired shall be put to productive use under CSR and developed with fruit bearing and other useful species for the local communities. In addition to afforesting 250.57 ha of area at the post-mining stage, the waste land/barren land within Cluster VIII ML shall be rehabilitated/reclaimed as forest/agricultural land under CSR Plan in consultation with local communities. Third party evaluation shall be got carried out regularly for the proper implementation of activities undertaken in the project area under CSR. Issue raised in the Public Hearing shall also be integrated with activities being taken up under CSR. The details of CSR undertaken along with budgetary provisions for the village-wise various activities and expenditure thereon shall be uploaded on the company website every year. The company must give priority to capacity building both within the company and to the local youth, who are motivated to carry out the work in future.</p>	<p><b>It is being complied.</b> BCCL is implementing CSR activities at various scale. A separate CSR committee has been formed at area level, which is looking after the works being executed under CSR. Bastacolla area is constructing 238 Nos. of toilets under CSR activity in different schools in Simdega district of Jharkhand under flagship program (Swachh Bharat Abhiyan) initiated by Hon'ble Prime Minister of India.</p>
<b>xL</b>	<p>For monitoring land use pattern and for post mining land use, a time series of land-use maps, based on satellite imagery (on a scale of 1:5000) of the core zone and buffer zone, from the start of the project until end of mine life shall be prepared once in 3 years (for any one particular season which is consistent in the time series), and the report submitted to MOEF and its Regional office at Bhubaneswar.</p>	<p><b>It is being complied.</b> Land Use Map of Cluster VIII has been prepared by CMPDIL using remote sensing data for monitoring of land use pattern and for post mining land use. <b>Enclosed as Annexure X.</b></p>
<b>xLi</b>	<p>A Final Mine Closure Plan along with details of Corpus Fund shall be submitted to the Ministry of Environment &amp; Forests five year before mine closure for approval. Habitat Restoration Plan of the mine area shall be carried out using a mix of native species found in the original ecosystem, which were conserved in-situ and ex-situ in an identified area within the lease for reintroduction in the mine during mine reclamation and at the post mining stage for habitat restoration.</p>	<p><b>It shall be complied.</b> CMPDI, Ranchi has prepared "Mine Closure Plan". In order to restore the original ecological system, Bastacolla Area has initiated restoration project at various sites having area of 19.67 Ha. Native species of flora and fauna can be seen on these sites.</p>

<b>xLii</b>	A separate environmental management cell with suitable qualified personnel shall be set up under the control of a Senior Executive, who will report directly to the Head of the company for implementing environment policy and socio-economic issues and the capacity building required in this regard.	<p><b>It has been complied.</b> A full-fledged Environment Department, headed by a Dy.GM (Environment) along with a suitable qualified multi-disciplinary team of executives and technicians from Environment, Mining, Civil, Survey, Electrical &amp; mechanical, Forestry disciplines and technicians, has been established at Company Headquarters. One Executive in each area has also been nominated as Project Nodal Officer (Environment) and is also entrusted with the responsibility of compliance and observance of the environmental Acts/Laws including environment protection measures. The activities are monitored on regular basis at Area and at Headquarter levels.</p> <p>The team is very much motivated under the guidance of company's Director (Technical) and CMD.</p>
<b>xLiii</b>	Implementation of final mine closure plan for Cluster VIII, subject to obtaining prior approval of the DGMS in regard to mine safety issues.	<p><b>It is being complied.</b> Mine Closure Plan, has been prepared for each Mine in this cluster. Progressive mine closure has been implemented regularly as per the approved Mine Closure Plan prepared by CMPDIL. Prior information/intimation to DGMS will be given before final mine closure with due regard to mine safety issues.</p>
<b>xLiv</b>	<p>Corporate Environment Responsibility:-</p> <ol style="list-style-type: none"> <li>The Company shall have a well laid down Environment Policy approved by the Board of Directors.</li> <li>The Environment Policy shall prescribe for standard operating process/procedures to bring into focus any infringements/ deviation/ violation of the environmental or forest norms/ conditions.</li> <li>The hierarchical system or Administrative Order of the company to deal with environmental issues and for ensuring compliance with the environmental clearance conditions shall be furnished.</li> <li>To have proper checks and balances, the company shall have a well laid down system of reporting of non-compliances/violations of environmental norms to the Board of Directors of the company and/or shareholders or stakeholders at large.</li> </ol>	<p>A well-defined Corporate Environment Policy has already been laid down and approved by the Board of Directors. This is also uploaded on company's website. <b>Enclosed as Annexure XII.</b></p> <p><b>It is being complied.</b></p> <p>A hierarchical system of the company to deal with environmental issues from corporate level to mine level already exists.</p> <p><b>It is being complied.</b></p>

<b>B. General Conditions:</b>		
<b>i</b>	No change in mining technology and scope of working shall be made without prior approval of the Ministry of Environment and Forests.	It shall be complied.
<b>ii</b>	No change in the calendar plan of production for quantum of mineral coal shall be made.	<b>It is being Complied.</b>
<b>iii</b>	Four ambient air quality monitoring stations shall be established in the core zone as well as in the buffer zone for PM <sub>10</sub> , PM <sub>2.5</sub> , SO <sub>2</sub> and NO <sub>x</sub> monitoring. Location of the stations shall be decided based on the meteorological data, topographical features and environmentally and ecologically sensitive targets in consultation with the state Pollution Control Board. Monitoring of heavy metals such as Hg, As, Ni, Cd, Cr, etc carried out at least once in six months.	<b>It has been complied.</b> The optimum location of monitoring stations in Jharia Coal Field has been identified with the consultant advisory of CMPDIL and finalized with the approval of Jharkhand State Pollution Control Board. <b>Enclosed as Annexure IV.</b> Air quality Monitoring report has been enclosed as <b>Annexure XII.</b>
<b>iv</b>	Data on ambient air quality (PM <sub>10</sub> , PM <sub>2.5</sub> , SO <sub>2</sub> and NO <sub>x</sub> ) and heavy metals such as Hg, As, Ni, Cd, Cr and other monitoring data shall be regularly submitted to the Ministry including its Regional Office at Bhubaneswar and to the State Pollution Control Board and the Central Pollution Control Board once in six months. Random verification of samples through analysis from independent laboratories recognized under the EPA rules, 1986 shall be furnished as part of compliance report.	<b>It is being complied.</b> Data is regularly submitted to ministry along with compliance report.
<b>v</b>	Adequate measures shall be taken for control of noise levels below 85 dBA in the work environment. Workers engaged in blasting and drilling operations, operation of HEMM, etc shall be provided with ear plugs/muffs.	<b>It is being complied.</b> Personnel operating HEMMs, drilling machine and other machines comply with safety regulation and are equipped with Personal Protective Equipment. Noise monitoring data has been enclosed as <b>Annexure XIII.</b>
<b>vi</b>	Industrial wastewater (workshop and wastewater from the mine) shall be properly collected, treated so as to conform to the standards prescribed under GSR 422 (E) dated 19th May 1993 and 31st December 1993 or as amended from time to time before discharge. Oil and grease trap shall be installed before discharge of workshop effluents.	<b>It is being complied.</b> Effluents discharge standards area regularly monitored by CMPDIL for cluster VIII group of mines. Mine water is being treated using filter plants (Pressure, Sand filters etc.) for its further use in industrial purpose and supply to the community. Mine water monitoring report has been enclosed as <b>Annexure XIV.</b>
<b>vii</b>	Vehicular emissions shall be kept under control and regularly monitored. Vehicles used for transporting the mineral shall be covered with tarpaulins and optimally loaded.	<b>It is being complied.</b> Vehicles used for transportation of coal are always covered by tarpaulin and being monitored for the vehicular emission by the transporter and BCCL.

<b>viii</b>	Monitoring of environmental quality parameters shall be carried out through establishment of adequate number and type of pollution monitoring and analysis equipment in consultation with the State Pollution Control Board and data got analysed through a laboratory recognized under EPA Rules, 1986.	<b>It is being complied.</b> Ambient environmental monitoring is being done by CMPDIL. Monitoring data have been enclosed as Annexures.
<b>ix</b>	Personnel working in dusty areas shall wear protective respiratory devices and they shall also be provided with adequate training and information on safety and health aspects.	<b>It is being complied.</b> A separate full-fledged Human Resource Development Department is conducting regular training programme on these issues. Apart from this Vocational Training Centers are existing in all the Areas of BCCL, which provides periodical training on the safety and occupational health issue to the workers working in the mines. <b>Annexure XV.</b>
<b>x</b>	Occupational health surveillance programme of the workers shall be undertaken periodically to observe any contractions due to exposure to dust and to take corrective measures, if needed and records maintained thereof. The quality of environment due to outsourcing and the health and safety issues of the outsourced manpower should be addressed by the company while outsourcing.	<b>It is being complied.</b> Periodical Medical Examination (PME) of all the mining and other personnel is being carried out regularly at Area Hospital, Tisra as per the Statutes and Director General of Mines Safety (DGMS) guideline. <b>Annexure XVI.</b>
<b>xi</b>	A separate environmental management cell with suitable qualified personnel shall be set up under the control of a Senior Executive, who will report directly to the Head of the Company.	<b>It has been complied.</b> A full-fledged Environment Department, headed by a Dy.GM (Environment) along with a suitable qualified multi-disciplinary team of executives and technicians from Environment, Mining, Civil, Forestry disciplines etc. has been established at Company Headquarters. One Executive in each area has also been nominated as Area Nodal Officer (Environment) and is also entrusted with the responsibility of compliance and observance of the environmental Acts/Laws including environment protection measures. The activities are monitored on regular basis at Area and at Headquarter levels. The team is very much motivated under the guidance of company's Director (Technical) and CMD.
<b>xii</b>	The funds earmarked for environmental protection measures shall be kept in separate account and shall not be diverted for other purpose. Year-wise expenditure shall be reported to this Ministry and its Regional Office at Bhubaneswar.	<b>It is being complied.</b> Funds for environmental protection measures area kept in separate head which is only used in environmental management activities. These funds are not diverted into other works.

<b>xiii</b>	The Project authorities shall advertise at least in two local newspapers widely circulated around the project, one of which shall be in the vernacular language of the locality concerned within seven days of the clearance letter informing that the project has been accorded environmental clearance and a copy of the clearance letter is available with the State Pollution Control Board and may also be seen at the website of the Ministry of Environment & Forests at <a href="http://envfor.nic.in">http://envfor.nic.in</a> .	<b>It has been complied.</b> Advertisement in local newspaper has also been done.
<b>xiv</b>	A copy of the environmental clearance letter shall be marked to concern Panchayat/Zila Parishad, Municipal Corporation or Urban local body and local NGO, if any, from whom any suggestion/representation has been received while processing the proposal. A copy of the clearance letter shall also be displayed on company's website.	<b>It has been complied.</b>
<b>xv</b>	A copy of the environmental clearance letter shall also be displayed on the website of the concerned State Pollution Control Board. The EC letter shall also be displayed at the Regional Office, District Industry Sector and Collector's Office/Tehsildar's Office for 30 days.	<b>It has been complied.</b>
<b>xvi</b>	The clearance letter shall be uploaded on the company's website. The compliance status of the stipulated environmental clearance conditions shall also be uploaded by the project authorities on their website and updated at least once every six months so as to bring the same in public domain. The monitoring data of environmental quality parameter (air, water, noise and soil) and critical pollutant such as PM <sub>10</sub> , PM <sub>2.5</sub> , SO <sub>2</sub> and NO <sub>x</sub> (ambient) and critical sectoral parameters shall also be displayed at the entrance of the project premises and mine office and in corporate office and on company's website.	Environmental clearance and six monthly compliance of the EC conditions of the cluster have been uploaded on the company's website ( <a href="http://www.bccl.gov.in">www.bccl.gov.in</a> ).
<b>xvii</b>	The project proponent shall submit six monthly compliance reports on status of compliance of the stipulated environmental clearance conditions (both in hard copy and in e-mail) to the respective Regional Office of the Ministry, respective Zonal Offices of CPCB and the SPCB.	<b>It is being complied.</b> Six monthly compliance report is regularly send to (twice in a year) the Regional Office of MoEFCC, Ranchi along with required data and information both in hard copy along with soft copy.

<b>xviii</b>	The Regional Office of this Ministry located at Bhubaneswar shall monitor compliance of the stipulated conditions. The Project authorities shall extend full cooperation to the office(s) of the Regional Office by furnishing the requisite data/ information/ monitoring reports.	Project will extend its all possible support and cooperation to the Regional Office in any kind of monitoring/visit/data collection etc.
<b>xix</b>	The Environment statement for each financial year ending 31 March in Form-V is mandated to be submitted by the project proponent for the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently, shall also be uploaded on the company's website along with the status of compliance of EC conditions and shall be sent to the respective Regional Offices of the MoEF by E-mail.	<b>It is being complied.</b> It is being submitted for all the mines of cluster VIII to Head Office of Jharkhand State Pollution Control Board for every Financial Year ending on 31 <sup>st</sup> March. Copy of the same have been also submitted to Regional Office.
<b>C. Other Conditions by MOEF</b>		
<b>i</b>	The Ministry or any other Competent Authority may stipulate any further condition(s) for environmental protection.	<b>Agree</b>
<b>ii</b>	Failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract the provisions of the Environment (Protection) Act, 1986.	<b>Agree</b>
<b>iii</b>	The above conditions will be enforced inter-alia, under the provisions of the Water (Prevention & Control of Pollution) Act, 1974, the Air (Prevention & Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986 and the Public Liability Insurance Act, 1991 along with their amendments and Rules. The Proponent shall ensure to undertake and provide for the costs incurred for taking up remedial measures in case of soil contamination, contamination of groundwater and surface water, and occupational and other diseases due to the mining operations.	<b>Agree</b>

iv	The Environmental Clearance is subject to the outcome of the Writ Petition filed by M/S Bharat Coking Coal Limited (BCCL) in response to the closure orders issued by the Jharkhand State Pollution Control Board which is pending in the Jharkhand High Court.	Agree.

**विषय:** Studies required for compliance of environmental clearance conditions of BCCL mine under cluster concept.

**Ref:** (i) Letter no. - BCCL/GM(Env.)/File - EC/13 /622 dt. 24.5.13  
(ii) Letter no. CMPDI/BD/B(Env.)/439 dt. 12.9.13

Dear Sir,

The undersigned has been directed to convey that against the above referenced letter at Sl.No. (i), BCCL had enquired CMPDI about the presence of expertise and EDs required for carrying out the studies required for compliance of environmental clearance conditions of BCCL mine under cluster concept.

CMPDI vide letter referenced at Sl.No.(ii) informed BCCL regarding the willingness to undertake the studies and presence of expertise in the following areas -

1. Source Apportionment Study for the entire Jharia Coalfield
2. Continuous monitoring of long term impacts of dumping of fly ash
3. Time series of land use maps based on satellite imagery
4. Study to analyze the extent of pollution reduction
5. Monitoring performance of ecologically restored sites.

However it may be noted that the following studies are currently being carried out by CMPDI for BCCL -

1. Time series map of Jharia CF (isothermal imaging and monitoring of temperature)
2. Early warning system for detection of fire and subsidence
3. Continuous monitoring of behavior of mine fire, subsidence etc.

All above jobs except source apportionment studies are of continuous nature and since CMPDI has the expertise in carrying them out, it is requested that may be awarded to CMPDI.

सधन्यावाद,

Regional Director, RI-2, CMPDI, Dhanbad :

for kind information with a request to follow up with BCCL

## Global Expression of Interest (EoI)

For

Dealing with coal mine fires in lease hold of BCCL in Jharia Coalfield, Dhanbad, Jharkhand, India. Detailed scope of work as given in the document.

**LAST DATE OF SUBMISSION : 28.04.2014**

### 1. BHARAT COKING COAL LIMITED: A PROFILE

Bharat Coking Coal Limited incorporated in January, 1972 is a fully owned subsidiary of Coal India Limited a 'Maharatna' Public Sector Undertaking under the Ministry of Coal, Government of India. Being the sole repository of prime coking coal in the country, BCCL, at present operates 66 coal mines spread over in Jharia Coalfield and part of Raniganj Coalfield apart from 6 coking coal-washeries & 2 non-coking coal washeries. The mines are grouped under 12 areas for administrative convenience. BCCL has some unique inherent and perennial characteristics which adversely affect the normal operation of the Company. Difficult geo-mining conditions involving large number of overlaying coal seams, preponderance of old workings, high degree of gassiness, coal fires affecting working seams, water logged upper seams above current places of working, etc, restricts coal production and productivity. Besides, high density of population in the coal bearing areas limits the equipment size of opencast operations apart from being an impediment to acquisition of land for uninterrupted operations. In the year 2012-13, the company achieved a coal production of 31.21 million tone and offtake of 32.99 million tone thereby registering the highest ever the Turnover and Profitability (PAT) of Rs 10176.62 Cr. and Rs 1709.06 respectively. A brief description of the organizational structure and the detailed activities of Bharat Coking Coal Limited can be viewed in the website <http://www.bccl.gov.in>.

The mission is to produce planned quantity of coal efficiently and economically in an Eco-friendly manner with due regard to Safety, Conservation & Quality. The company strives to meet the growing demand of thermal as well as metallurgical coal in the country in an environmentally and socially sustainable manner.

## 2.2. Bidder's Credential Requirement:

- i) The bidder(s) must have successfully dealt with mine fire in at least two coal mines, one open cast and one underground mine. The annual capacity of opencast and underground mines should be at least 2 Mt and 0.5 Mt respectively during last seven years of last financial year. The documentary proof of successful dealing with fire shall be submitted along with the bid.
- ii) The bidders in their name must have achieved a minimum average annual financial turnover of INR One Hundred Million or equivalent USD during last 3 years ending 31st March of previous financial year. The documentary evidence to this effect would be copies of audited Balance Sheet and Profit & Loss A/c duly countersigned by the authorized representative of bidding company and a declaration to the above effect duly signed by the authorized representative of bidding company & countersigned by a Chartered Accountant or equivalent.
- iii) The bidder must possess "key personnel" (minimum number) of the following categories with requisite qualification and experience :-

Sl. No	Skill of key personnel	Requisite Qualification	Minimum Experience	Minimum Nos. for eligibility
1.	Technical Expert (Mining/ Fire dealing/ Mine Rescue)	B.E /B.Tech (Mining) or equivalent	10 years.	10
2.	Technical Expert (Geology/Remote Sensing)	M. Sc (Geology) or equivalent	10 years	2
3.	Technical expert (Environment)	B. Tech/BE/M.Sc.(Envr) or equivalent	10 years	1
4.	Technical Expert (Infrastructure)	B. Tech /B.Tech (Mechanical / Electrical / Civil) or equivalent	10 years	3
5.	IT Expert	B.E /B.Tech/ M.Sc (Computer) or equivalent	10 years	1
6.	Financial Expert	MBA(Finance)/Chartered Accountant/ICWA or equivalent	10 years	1

Note :- The bidder shall designate one of the team members as the team leader.

The documentary evidence to this effect would be self-attested CVs including necessary competency certificate for working in Indian mines duly countersigned by the authorized representative of bidding company.

- iv) Copy of PAN (Permanent Account Number) with Income Tax Authority in India for bidder(s) from India.
- v) Copy of PAN Based Service Tax Registration Number in India for bidder (s) from India.

### **3.0 Availability of details for EOI :**

Details for EOI including Terms and Conditions of EOI can be collected from the following place during the period as stated below:

Date: From 27.01.2014 to 26.02.2014.

Time: 10.00 AM to 1.00 PM (on all working days)

Office of the GM (CMC)  
Contract Management Cell, BCCL  
Level-V, Koyla Bhawan,  
Dhanbad - 826005

Details for EOI including Terms and Conditions of EOI can also be downloaded directly from the BCCL web-site <http://www.bccl.gov.in> and NIC Portal, website <http://www.tenders.gov.in> during the period as mentioned above.

### **4.0 Pre - EOI submission meeting :**

Pre - EOI submission meeting will be held on 14.02.2014 at 11:00AM in the office of GM (CMC), BCCL, Level-V, Koyla Bhawan, Dhanbad for clarifications and discussion.

### **5.0 GENERAL INSTRUCTIONS FOR SUBMISSION OF EOI :**

Expression of Interest (EOI) shall be submitted by the Consultants / agencies / firms / organizations in a sealed envelope superscribed with "EOI for Dealing with coal mine fires in lease hold of BCCL in Jharia Coalfield, Dhanbad, Jharkhand, India. Detailed scope of work as given in the document." giving EOI reference no. with date and full postal address & telephone nos. on the envelope.

### **6.0 RECEIPT OF EOI**

EOI will be received in sealed envelopes up to 28.04.2014 at the following address only:

Office of the GM (CMC)  
Contract Management Cell, BCCL  
Level-V, Koyla Bhawan,  
Dhanbad - 826005

The offers may be submitted through post also. BCCL takes no responsibility for delay, loss or non receipt of the offers send by post. Fax offers or offers sent through e-mail shall not be accepted.

SC-10

#### 7.0 OPENING OF THE EOI :

EOI will be opened on **29.04.2014 at 04.00 PM** in the office of the GM (CMC), BCCL, Level-V, Koyla Bhawan, Dhanbad-826005.

Bidders are requested to go through the details of EOI document & enclose all the required documents along with the proposal. Each page of the proposal shall be signed with seal.

9.0 Prospective parties may note that mere submission of EOI and / or submission of additional information do not automatically entitle them to claim for pre-qualification. BCCL reserves the right to seek for any other information during the process of evaluation, if required.

10.0 BCCL reserves the right to reject any / all the applications to EOI without assigning any reason(s) whatsoever thereof.

Sd/-  
General Manager  
(Contract Management Cell)

#### Distribution :

1. PRO – With a request to publish the abridged EOI as enclosed in local as well as National dailies as per norms of the Company and also arrange to send the paper cutting of publication to the Contract Management Cell.
2. D(T)OP / D(T)P&P / D(F) / D(P) / CVO.
3. GM(Co-ordn) / GM(S&M) / GM(F)/C / GM(M&M) / GM(E&M) / GM(Excv) / GM(P&P) / GM(IE) / GM(System) / Dy. GM (Env't.), BCCL
4. Sr.ES to CMD - for kind information of CMD.
5. HOD (Admn) with a request to display this EOI in Koyla Bhawan Notice Boards.
6. All CGMs/GMs of the Areas including Washery Zones for wide circulation through display in the Notice Boards.
7. Inspector, CISF- with a request to deploy security personnel at the office of GM (CMC), Level-V, Koyla Bhawan on 28.04.2014 from 9:30A.M to 4:00P.M and on 29.04.2014 from 3:30 PM till completion of the meeting.
8. Desk In-Charge, BCCL, M M Division, 4<sup>th</sup> floor, 6, Lyons Range, Kolkata.
9. CGM / GM (Contract Management Cell), WCL/SECL/NCL/MCL/ECL/CCL & CIL
10. Sri R.K. Choubey, Sr.DEO / Sri B N Banerjee, DEO, CMC Deptt. - to upload this EOI in BCCL Website and forward soft copy of NIC format to GM (System) for uploading the same at NIC portal website (soft copy of the same is enclosed for needful).

### 3.3 H Monitoring of Ground Water Levels of Cluster-VIII

Cluster-VIII consists of ten mines namely; Bastacolla mixed mines (OC & UG), Bera mixed mines (OC & UG), Dobari UG, Kuya mixed (OC & UG), proposed Goluckdih (NC) OC, Ghanoodih OC and Kujama OC under the administrative control of Bastacolla Area of BCCL. This Cluster of mines is located in eastern part of Jharia Coalfield in Dhanbad district of Jharkhand.

The present leasehold area of Cluster-VIII is 1200.41 Ha. The area has a general undulating topography with general slope towards south and south-west. The ground elevation in the area ranges from 175 m to 221 m AMSL. Chatkari Jore, Tisra Jore and its tributaries controlling the drainage pattern of the area. The area comes under the watershed of Chatkari Jore.

4 hydrograph stations (**D-8, D-43, D-49 and D-51**) are located in the core zone of the mine area. Water level monitoring in these monitoring stations has been done in the months of February, April, August & November'2015 and the Ground water level data is enclosed in the table below:

Sl No.	Well No.	Location	Water level (bgl in meters)			
			Feb'15	Apr'15	Aug'15	Nov'15
1	D-8	Alokdiha	4.81	6.24	3.00	4.38
2	D-43	Alagdih	3.67	6.61	3.32	5.05
3	D-49	Galucdih	1.70	3.55	1.68	2.35
4	D-51	Chankuiya	9.83	10.48	6.81	9.15
<b>Average WL (bgl)</b>			<b>5.00</b>	<b>6.72</b>	<b>3.70</b>	<b>5.23</b>

Ground Water Level (in bgl) varies from 1.70 to 9.83 m during February, 3.55 to 10.48 m during April, 1.68 to 6.81 m during August and 2.35 to 9.15 m during November'2015 within the Core Zone of Cluster-VIII area.

**Table No-4: Groundwater level data Cluster-wise**

<b>Sl. No.</b>	<b>Cluster of BCCL</b>	<b>No. of Monitoring Wells</b>	<b>Water level fluctuation Below ground level (Feb, Apr, Aug &amp; Nov'15)</b>	<b>Formation</b>
1	I	4 nos.	0.43 to 7.37 m	Barakar
2	II	5 nos.	1.05 to 9.21 m	Barakar
3	III	5 nos.	0.95 to 9.21 m	Barakar
4	IV	5 nos.	0.50 to 7.82 m	Barakar
5	V	4 nos.	1.58 to 6.55 m	Barakar
6	VI	2 nos.	1.55 to 4.55 m	Barakar
7	VII	7 nos.	0.30 to 10.97 m	Barakar
8	VIII	5 nos.	1.68 to 10.48 m	Barakar
9	IX	6 nos.	1.21 to 10.05 m	Barakar
10	X	5 nos.	1.05 to 9.80 m	Barakar
11	XI	5 nos.	1.09 to 8.40 m	Barakar & Barren Measure
12	XIII	6 nos.	1.33 to 11.37 m	Raniganj
13	XIV	3 nos.	2.21 to 9.80 m	Raniganj
14	XV	4 nos.	2.54 to 17.20 m	Barakar & Barren Measure
15	XVI	4 nos.	2.13 to 9.52 m	Barakar

## 4.0 GROUNDWATER LEVEL SCENARIO

During the month of February'2015 the depth to water level (in bgl) varies from 0.30 m to 9.83 m with an average varies from of 1.94 m to 6.15 m. During the month of April'2015 the depth to water level varies from 1.38 m to 17.20 m with an average varies from 4.52 m to 10.30 m. During the month of August'2015 the depth to water level varies from 0.35 m to 6.81 m with an average varies from 1.95 m to 4.18 m. During the month of November'2015 the depth to water level varies from 0.45 m to 14.58 m with an average varies from 2.08 m to 7.47 m. The summarized water level data of all clusters are given in **Table No – 4**.

Depth to water level (in bgl) values described that water level goes down to maximum 17.20 m during pre-monsoon and maximum upto 14.58 m during post-monsoon. Un-confined aquifer is affected around 20 m to 30 m maximum close to active opencast mining areas, showing steep gradient towards mine void. Other than that, there is no mining effect in the water level within JCF area and RCF area (part). Historical water level data and hydrograph of permanent observation stations from CGWB shown in **Annexure–III**.

Monitoring groundwater (quantity & quality) to assess the present condition and resource has been done regularly in the coalfield areas. Well hydrographs (**Annexure–III**) are prepared and studied to identify potentially adverse trends so that appropriate action can be taken to protect groundwater resource. According to the hydrograph trend analysis of CGWB monitoring wells, no significant decline trend of water level is noticed in any particular area for the last 10 years within the coalfield area. Regarding quality monitoring, the water sample location map (**Figure No–2**) with collection points details (dug wells) are given in **Annexure–IV**.

**विषय: Study of installation of Rail-cum-Conveyor System in BCCL for transportation of coal.**

महोदय,

This has reference to your letter no. BCCL/GM(Env.)/F-EC/13/622, dated 25.05.2013 for conducting the study and preparation of plan for installation of Rail-cum-Conveyor System for coal transportation in BCCL as a part of compliance of environmental clearance (EC) conditions stipulated by MoEF & CC in EC orders of different clusters. In this regard, we would like to inform you the following:

- As per EC clearance order transportation plan for Rail-cum-Conveyor system should dovetailed with Jharia Action Plan (Master Plan). The system of transportation is required to be installed in 2<sup>nd</sup> phase of EC implementation i.e. after completion of Master Plan (10 years) and 5 years of gestation period.
- JRDA has issued direction to RITES for traffic survey and data collection to initiate feasibility study regarding Diversion of Railway lines from fire affected and subsidence prone areas
- Coal transportation route / conveyor installation layout will be finalized after liquidation of coal mine fire, rehabilitation of 595 unstable sites, road and rail route alignment and location of Rly. Sidings of BCCL.

CMPDI will be able to submit the plan / study for installation of Rail-cum-Conveyor System in BCCL for transportation of coal only after diversions and re-alignments of roads and railway lines and relocation of railway sidings

This is for your kind information.

Sd/- Amankanta S.B.  
for compliance purpose.

## Landuse Map generated from Remote Sensing Data

**BHARAT COKING COAL LIMITED**  
(A Subsidiary of Coal India Limited – A Maharatna Company)

## **CORPORATE ENVIRONMENTAL POLICY**

Bharat Coking Coal Limited (BCCL), a subsidiary of Coal India Limited, is a Public Sector Undertaking engaged in mining of coal and allied activities. It is the only producer of Prime Coking Coal in India. BCCL was incorporated in 1972 to operate coking coal mines operating in the Jharia and Raniganj Coalfields. Currently, the Company operates 66 coal mines and 8 Coal Washeries.

Our mission is to produce the planned quantity of coal efficiently and economically with due regard to safety, conservation and quality. BCCL affirms its commitment for environment friendly mining with right mitigation of pollution, reclamation of the degraded land, preservation of biodiversity and proper disposal of waste following the best environmental practices including judicious use of the non-renewable energy on the path of continual improvement. Towards this commitment, BCCL shall endeavor to:

- ❖ Conduct mining and associated operations in an environmentally responsible manner to comply with applicable laws and other requirements related to environmental aspects.
- ❖ Design projects with due consideration of Sustainable Development by integrating sound environmental management practices in all our activities.
- ❖ Prevent pollution of surrounding habitation by continuous monitoring and adopting suitable measures for environment protection.
- ❖ Ensure compliance of all applicable Environmental and Forest Clearance conditions and other statutory conditions issued by regulatory agencies.
- ❖ Implement the Environmental Management Plans in all our mines effectively to mitigate pollutions on air, water and noise; proper disposal of wastes and reclamation and ecological restoration of degraded land; and by also dovetailing the Jharia action/ Master Plan for dealing with Fires, Subsidence and Rehabilitation of affected people with the Environmental Management Plans under the Cluster Concept.
- ❖ Strive to conserve Bio-Diversity through Ecological restoration methods.
- ❖ Conserve natural resources through recycling of wastes on the principle of Reduce, Recycle and Reuse. Put special thrusts on efficient energy utilization as a measure to reduce carbon foot-print.
- ❖ Strive for continual improvement in our environmental performances by setting targets, measuring progress and taking corrective action.
- ❖ Create environmental awareness among the employees and the local communities through pro-active communication and training and encourage our business associates to adopt similar approach for environmental protection.
