BCCL, Koyla Bhawan

2522
6/12/13

Sub : Compliance of EC Coditions of Cluster- VI Mines of Kusunda Area

Dear Sir,

Enclosed please find herewith Compliance of EC Coditions of Cluster- VI Mines of Kusunda Area for onward submission.

Sincerely yours

Encl.: As above.

6/12/13.

COMPLIANCE OF EC CONDITIONS of CLUSTER-VI

Sl. no.	A. Specific Conditions by MOEF:	Compliance
i	The maximum production from the two opencast section in the cluster shall not exceed beyond that for which environmental clearance has been granted.	The approved normative production and peak production for East Bassuriya OC and Gondudih Khas Kusunda OC under Kusunda Area are total 3.50 MTPA & 4.55 MTPA respectively and for whole cluster consisting of East Bassuriya Colliery, Bassuriya Colliery, Gondudih Khas Kusunda Colliery and Godhur Colliery, that figure is 5.87 MTPA and 7.631 MTPA respectively. The total production of the above two OC mines is 0.89 MT in the year '12-'13 and 0.57 MT in '13-'14 (upto Sept.'13) only, and total production of all mines of the cluster is 1.0237 MT in '12-'13 and 0.6307 MT in '13-'14 (upto Sept.'13) which is well within the limit.
ii	The two nallahs passing through the mines should be preserved and made functional to drain the water.	Complied.
iii	The coal transport to the siding will continue by road to the siding within 2 km with payload loading into Rly. Wagons for a period of 5 years by which time the proposed silo in Rly. Siding not being affected in the Jharia Action Plan will be constructed for RLS loading into railway wagons.	CMPDIL, RI-II has been requested to conduct study and prepare the plan in this regard. Conversion of existing truck in to mechanically covered trucks in a phased manner has been taken up. By that time transportation is being done by covering vehicle with tarpaulin cover.
iv	As subsidence is on higher side in Godhur colliery, special attention should be given for control and monitoring of subsidence.	For control and monitoring of threat of subsidence at fire affected area within Godhur lease hold special attention has been made by mine management. Director of CIMFR, Dhanbad has been requested for scientific study for formulating time schedule of work to prevent propagation of fire. JRDA has completed survey the basties at fire affected area for evacuation & rehabilitation of the inhabitants under Jharia Action Plan and has prepared approx.250 no. Identity Cards. Colliery Management have allotted quarters at other safe place to 41(approx.) employees residing at/near fire affected area for their early evacuation. Besides, one special team headed by senior mine official has

		been made at Colliery for inspection/supervision of the lease hold area of Godhur for early detection of any pot hole, fume and report to mine management for early action.
v	All old dumps will be filled back in mine voids. At the end of mining there should not be any OBD and should be only one void which shall not exceed 30 m deep.	It shall be complied. Action is being taken as specified in EMP. Backfilling of OB is going on concurrent with mining.
vi	An increase in the CSR	BCCL is taking up activities from the HQ level and through its administrative areas for the implementation of CSR activities. For this purpose A CSR cell is functioning which is headed by General Manger(Welfare) under the direct control of Director(Personnel) of the company.
vii	Dhanbad Action Plan, as CEPI, be implanted where ever is applicable.	Dhanbad Action Plan has been prepared in consultation with Jharkhand Pollution Control Board for entire BCCL and not clusterwise. It is being implemented comprehensively for all the mines of BCCL. Some of the salient actions of this cluster are enclosed.
viii	Since the cluster is situated close to Dhanbad, thick green belt and residential areas should be done along the periphery of ML area. Avenue-plantation should be done along the roads which are used for coal transport and measures to arrest coal dust while transporting by covering the trucks and water sprinkling measures etc.	It shall be complied. Plantation at degraded area and avenue plantation is already being executed for development of green belts as per EC. Adequate water sprinkling is being done at coal transportation road regularly by water tankers, and coal transportation is being done by covering trucks by tarpaulin as measures to arrest coal dust. Details of plantation done and programme of eco-restoration are enclosed .
ix	Whereas laudable efforts have been made in drawing skill development programmes along with Planning Commission of Gol , all out efforts should be made to ensure that they are suitably employed either with the PP or elsewhere,	Training programmes for all employees are being conducted regularly at mine vocational training centre as per Mine VT Rule and special training are being conducted at mine VT Centre, at HRD Deptt. of BCCL HQ. and outside of Company for development of their skill.
x	The measure to identify in the Environmental Plan for Cluster- VI groups of mine and the conditions given in this environmental clearance letter shall be dovetailed to the implementation of the Jharia Action Plan.	Master Plan activities are dovetailed with compliance of environmental clearance conditions. The master plan deals with fire control and rehabilitation activities of fire affected areas in the leasehold of BCCL. By implementing the fire control measures air

		<p>pollution and emission of Green House Gases (GHGs) from the fire affected areas are being prevented. Further rehabilitation of the families from the fire endangered area to the safe places is being taken-up with the help of State Govt. of Jharkhand.</p> <p>The Master plan is being implemented for BCCL as per the prioritization of fire and rehabilitation activities in approved Master Plan. The brief status of Rehabilitation and Fire control measures are as annexure enclosed</p>
xi	<p>The proponent shall prepare time -series maps of the Jharia Coalfields through NRSA to monitor and prevent fire problems in the Jharia Coalfields by Isothermal mapping /imaging and monitoring temperatures of the coal seams (whether they are close to spontaneous ignition temperatures) and based on which, areas with potential fire problems shall be identified. Measures to prevent ingress of air (Ventilation) in such areas, to prevent restart fresh/spread fires in other areas including in mines of cluster VI shall be undertaken. Expertise available internationally. could also be utilized for control of fire in Jharia Coalfields and for their reclamation and to further minimize time for fire and subsidence control. Isothermal mapping using thermal imaging has been got done by NRSA. Measures would be taken to prevent ingress of air (ventilation) in such areas, which may re-start fresh fires</p>	<p>Work has been awarded to NRSC (earlier NRSA). A MoU is to be entered with the NRSC for start of the work .For this purpose, duly signed MOU from BCCL end has been sent to NRSC for necessary processing at their end and to start the work immediately .(Copy enclosed)</p> <p>Action is being taken as specified in EC and as per Jharia Master Plan.</p> <p>For control and monitoring of fire affected area within Godhur lease hold special attention has been made by mine management. Director of CIMFR, Dhanbad has been requested for scientific study for formulating time schedule of work to prevent propagation of fire below NH-32, basties & other structures situated both sides of NH-32 within the lease hold of Godhur Colliery.</p> <p>Under Jharia Master Plan, fire patch of V/VI/VII/VIII seam at Gareria Section of East Bassuriya, Kusunda Area are being filled up by quarry OB of East Bassuriya OC.</p>
xii	<p>Underground mining should be taken up after completion of reclamation of Opencast mine area.</p>	<p>It shall be complied.</p>
xiii	<p>The OB material should be crushed like sand and be used for stowing in underground mines.</p>	<p>At present no mining operation with stowing is being done in underground mines of Kusunda Area ; only development work are being done there.</p>
xiv	<p>A detailed calendar plan of production with plan for OB dumping and backfilling (for OC mines)and reclamation and final mine closure plan for each mine of cluster-VI shall</p>	<p>Calendar plan has been prepared and enclosed as annexure-C</p> <p>Mine closure plan as per the guidelines of Ministry of</p>

	be drawn up and implemented. The schedule of backfilling should be clearly brought out and submit the same to MoEF.	Coal is under preparation by Regional Institute –II , Central Mine planning and Design Institute, Dhanbad and will be submitted . The financial provisions required for the implementation of mine closure plan are being kept in accounts.
xv	The embankment constructed along the river boundary shall be of suitable dimensions and critical patches shall be strengthened by stone pitching on the river front side and stabilized with plantation so as to withstand the peak water flow and prevent mine inundation	It is being followed. Embankments have been constructed and maintained as specified in EC
xvi	No mining shall be undertaken where underground fires continue. Measure shall be taken to prevent/check such fire including in old OB dump areas where the fire could start due to presence of coal/shale with sufficient carbon content.	It shall be complied. Action is being taken to control, mine fires as specified in Jharia Master Plan and the mining is being done as per the guidelines and permissions of Directorate General of Mines Safety (DGMS).
xvii	There shall be no internal OB dumps. There will be 8 external OB Dumps covering an area of 32.84 Ha. The height of the dumps shall be 16 m and the total quantity shall be of 5.247 Mm3. The final mine voids will have an area of 66.76 ha (Filled up with water). with depth of 25 m bgl. The entire mined out area shall be re-vegetated. Areas where opencast mining was carried out and completed shall be reclaimed immediately thereafter. It was observed that most of the OB are reclaimed total area 441.24 ha at the end of mining where reclaimed external OB dump 32.84 ha and internal OB Dump 120.34 ha. Green Belt over an area of 66.12 ha. Density of tree plantation 2500 trees/ ha of plants which of and abandoned. The proponent should dump all the OB material in abandoned mines.	It shall be complied. Action is being taken as specified in EMP. Backfilling of OB is going on concurrent with mining and at the end of mining activity the area will be re-vegetated and reclaimed as per EMP. Plantation work are already being done with the help of DFO, Dhanbad.
xviii	Mining shall be carried out as per statuette from the streams/nalas flowing within the lease and maintaining a safe distance from the nalas flowing along the lease boundary.	It is being followed. Embankments have been constructed as specified in EC

	A safety barrier of a minimum 60m width shall be maintained along the nalas/water bodies. The small water bodies in OC shall be protected to the extent feasible and the embankment proposed along water body shall be strengthened with stone pitching.	
xix	Active OB dumps near water bodies and rivers should be rehandled for backfilling abandoned mine voids. However, those which have been biologically reclaimed need not be disturbed.	No OB is being dumped near water bodies.
xx	Thick green belt shall be developed along undisturbed areas, mine boundary and in mine reclamation.	It is being complied. Yearly plantation is being done for development of green belts as per EC. Green belt development programme is enclosed as annexure-B.2 Details of programme of eco-restoration are enclosed.
xxi	Specific mitigative measures identified for the Jharia Coalfields in the Environmental Action Plan prepared for Dhanbad as a critically polluted area and relevant for Cluster VI shall be implemented.	Dhanbad Action Plan has been prepared in consultation with Jharkhand Pollution Control Board for entire BCCL and not clusterwise. It is being implemented comprehensively for all the mines of BCCL. Some of the salient actions of this cluster are enclosed.
xxii	The locations of monitoring stations in the Jharia Coalfields should be finalized in consultation with the Jharkhand State Pollution Control Board.	The work order for environmental monitoring of mines/washeries/units of BCCL as per the requirement of environmental Acts, Laws, Environmental Clearance conditions, etc has been issued by BCCL HQ. to Central Institute of Mining & Fuel Research (CIMFR), Dhanbad who is having CSIR laboratory recognized under the EP Rules. Presently ambient air is being monitored through BCCL own Laboratory at HQ level.
xxiii	The Committee stated that smoke/dust emission vary from source to source (fuel wood, coal, fly ash from TPPs, silica from natural dust, etc) and a Source Apportionment Study should be got carried out for the entire Jharia Coalfields. Mineralogical composition study should be undertaken on the composition of the suspended particulate matter (PM10 and PM2.5) in Jharia Coalfields and also	The work of monitoring of ambient environment has already been awarded to Central Institute of Mining & Fuel Research (CIMFR), Dhanbad having CSIR laboratory recognized under the EP Rules. Presently ambient environmental quality is being monitored through BCCL own Laboratory at HQ level.

	quantified. These studies would help ascertain source and extent of the air pollution, based on which appropriate mitigative measures could be taken.	
xxiv	The Plan for conveyor-cum—rail for Cluster-VI should be dovetailed with Jharia Action Plan. The Committee desired that road transportation of coal during Phase—I should be by mechanically covered trucks, which should be introduced at the earliest. Coal dispatch shall be diverted from the present rail sidings to Rapid Loading System (RLS) soon after the construction and commissioning of the RLS at Maheshpur is completed. The railway siding order issued and same would come in 3 years. The details of same should be provided to ministry. The mode of transportation of coal by truck till Railway Siding should be by mechanically covered trucks.	CMPDIL, RI-II has been requested to conduct study and prepare the plan in this regard. Conversion of existing truck in to mechanically covered trucks in a phased manner has been taken up. By that time transportation is being done by covering vehicle with tarpaulin cover.
xxv	1387 no. of PAF's should be rehabilitated at cost of Rs 10,768.17 Lakhs as per the approved Jharia Action Plan.	It is being complied.
xxvi	Regular monitoring of subsidence movement on the surface over and around the working area and impact on natural drainage pattern, water bodies, vegetation, structure, roads, and surroundings shall be continued till movement ceases completely. In case of observation of any high rate of subsidence movement, appropriate effective corrective measures shall be taken to avoid loss of life and material. Cracks shall be effectively plugged with ballast and clayey soil/suitable material.	No depillaring process is in operation in any ug mines of Kusunda Area. For control and monitoring of threat of subsidence at fire affected area within Godhur lease hold special attention has been made by mine management. Director of CIMFR, Dhanbad has been requested for scientific study for formulating time schedule of work to prevent propagation of fire . JRDA has completed survey the basties at fire affected area for evacuation & rehabilitation of the inhabitants under Jharia Action Plan and has prepared approx.250 no. Identity Cards. Colliery Management have allotted quarters at other safe place to 41(approx.) employees residing at/near fire affected area for their early evacuation. Besides, one special team headed by senior mine official has been made at Colliery for inspection/supervision of the lease hold area of Godhur for early detection of any pot hole, fume or any other indication of subsidence and report to mine management for early action.

xxvii	Sufficient coal pillars shall be left un extracted around the air shaft (within the subsidence influence area) to protect from any damage from subsidence, if any.	It is already complied
xxviii	High root density tree species shall be selected and planted over areas likely to be affected by subsidence.	It will be complied, if required
xxix	Depression due to subsidence resulting in water accumulating within the low lying areas shall be filled up or drained out by cutting drains.	It will be complied, if required
xxx	Solid barriers shall be left below the roads falling within the blocks to avoid any damage to the roads.	It will be complied.
xxxi	No depillaring operation shall be carried out below the township/colony.	It will be complied,
xxxii	A detailed CSR Action Plan shall be prepared for Cluster VI group of mines. As stated by the Proponent, it is formulating a detailed Corporate Social Responsibility (CSR) Action Plan through Tata Institute of Social Sciences (TISS), Mumbai which will consist of need-based base-line survey, CSR Action Plan, CSR Auditing and monitoring mechanism etc. Director (Per.), BCCL. along with a team visited TISS/ National CSR Hub, Mumbai on 18th Jun, 2012 for finalizing the MoU with TISS and National CSR Hub for conducting base-line survey, empanelment of NGOs and formulating the project specific CSR action plan for BCCL. The Action Plan for Corporate Social Responsibility will include 5% of the retained earnings of the previous year subject to minimum of Rs. 5 per tonne of coal production of the previous year will be provided for Corporate Social Responsibility (CSR), an amount of Rs. 381.55 lakhs/year has been year marked for the CSR activities.	CSR activities are being taken up on priority basis. A detailed CSR Action Plan shall be formulated and for this purpose, BCCL has approached TATA INSTITUTE OF SOCIAL SCIENCES (TISS), MUMBAI which is also the focal agency of the National CSR Hub. TISS ,Mumbai has informed that the process of interviewing ,short listing and selection of Programme Managers and Program Officers has been completed and their Officers are expected to report on field duty soon.
xxxiii	The area within Cluster VI ML existing as waste land and not being acquired shall be put for productive use under CSR and	A detailed CSR Action Plan shall be formulated and for this purpose, BCCL has approached TATA INSTITUTE OF SOCIAL SCIENCES, MUMBAI which is also the focal

	<p>developed with fruit bearing and other useful species for the local communities. A third party evaluation shall be got carried out regularly for the proper implementation of activities undertaken in the project area under CSR. Issue raised in the Public Hearing shall also be integrated with activities being taken up under CSR. The details of CSR undertaken along with budgetary provisions for the village-wise various activities and expenditures there on shall be uploaded on the company website every year. The company must give priority to capacity building both within the company and to the local youth, who are motivated to carry out the work in future. The gap/space available between the entire mine area should be suitably planted with native species. Plantation should also be made in vacant area and along the road side so as to reduce dust pollution.</p>	<p>agency of the National CSR Hub.</p> <p>TISS ,Mumbai has informed that the process of interviewing ,short listing and selection of Programme Managers and Program Officers has been completed and their Officers are expected to report on field duty soon.</p> <p>It shall be complied. Plantation at degraded area and avenue plantation is already being executed with the help of DFO, Dhanbad for development of green belts as per EC. Eco-restoration work at OB dump area will soon be started.</p> <p>Details of plantation done and programme of eco-restoration are enclosed .</p>
xxxiv	The mine water should be treated properly before supply to the villager.	Mine water is treated by water filter plant before supply to villagers.
xxxv	Details of transportation, CSR, R&R. and implementation of environmental action plan for each of the clusters-V1 should be brought out in a booklet form within a year and regularly updated.	It shall be complied.
xxxvi	Central recreation park with herbal garden should be developed for use of all inhabitants.	It shall be complied.
xxxvii	Mine discharge water shall be treated to meet standards prescribed standards before discharge into natural water courses/agriculture. The quality of the water discharged shall be monitored at the outlet points and proper records maintained thereof and uploaded regularly on the company website.	It shall be complied. The work of monitoring of ambient water has already been awarded to Central Institute of Mining & Fuel Research (CIMFR), Dhanbad having CSIR laboratory recognized under the EP Rules. Presently mine water is being monitored through BCCL own Laboratory at HQ level. The quality of water is within prescribed standards.
xxxviii	No groundwater shall be used for the mining activities. Additional water required, if any shall be met from mine water or by recycling/reuse of the water from the existing activities and from rainwater	No ground water is being utilized for the purpose of industrial use of the water. Mine water has been channelized through pipelines and through delivery for its use for the community and irrigation purposes.

	<p>harvesting measures. The project authorities shall meet water requirement of nearby village(s) in case the village wells go dry to dewatering of mine.</p>	<p>Drinking water is being purchased from the Mineral Area Development Authority (MADA). Further for the utilization of mine water following actions has been taken by the company</p> <ol style="list-style-type: none"> 1. Installation of Pressure filters: In Kusunda Area, one Pressure Filter, two Slow Sand Filter and one Rapid Gravity Filter Plant are in operation. At East Bassuriya New Colony, proposal for installation of two nos. Pressure Filters of each 15000 GPH capacity is under process. 2. Rain water Harvesting: to catch run-off water in colonies Rain water Harvesting is being done. BCCL has already developed rain water harvesting at Koylanagar Township In Kusunda Area, proposal for rain water harvesting at two colonies is under process from Civil Deptt.
xxxix.	<p>The void shall be converted into a water reservoir of a maximum depth of 15-20 m and shall be gently sloped and the upper benches of the reservoir shall be stabilized with plantation and the periphery of the reservoir fenced. The abandoned pits and voids should be backfilled with OB and reclaimed with plantation and or may be used for pisciculture.</p>	<p>It shall be complied.</p>
xl	<p>Regular monitoring of groundwater level and quality of the study area shall be carried out by establishing a network of existing wells and construction of new peizometers. The monitoring for quantity shall be done four times a year in pre-monsoon(May), monsoon(August), post-monsoon(Novemer) and winter(January) seasons and for quality including Arsenic and Fluoride during the month of May. Data thus collected shall be submitted to the Ministry of Environment & Forest and to the Central Pollution Control Board/SPCB quarterly within one month of monitoring. Rainwater harvesting measures shall be undertaken in case monitoring of water table indicates a declining trend.</p>	<p>The work of monitoring of ambient environment including ground water monitoring has been awarded to Central Institute of Mining & Fuel Research (CIMFR), Dhanbad having CSIR laboratory recognized under the EP Rules.</p>
xli	<p>ETP shall also be provided for workshop,</p>	<p>It shall be complied.</p>

	and CHP, if any. Effluents shall be treated to confirm to prescribe standards in case discharge into the natural water course.	
xlii	For monitoring land use pattern and for post mining land use, a time series of land use maps, based on satellite imagery (on a scale of 1:5000) of the core zone and buffer zone, from the start of the project until end of mine life shall be prepared once in 3 years (for any one particular season which is consistent in the time series), and the report submitted to MOEF and its Regional office at Bhubaneswar.	Presently a time series map of vegetation cover in the Jharia Coal Field is being carried out through CMPDI Ranchi using satellite imagery for every 3 years. Further CMPDI has been requested to prepare "Time series of land use maps based on satellite imagery of the core zone and buffer zone in the scale 1:5000.
xliii	A Final Mine Closure Plan along with details of Corpus Fund shall be submitted to the Ministry of Environment & Forests five year before mine closure for approval. Habitat Restoration Plan of the mine area shall be carried out using a mix of native species found in the original eco system which were conserved in-situ and ex-situ in an identified area within the lease for reintroduction in the mine during mine reclamation and at the post mining stage for habitat restoration, the mining plan and post-mining plan, closure plan should be prepared and submitted to the Ministry;	CMPDI, Ranchi has been requested to prepare "Final Mine Closure Plan along with a Plan for Habitat Restoration and with details of Corpus Fund".
xliv	A separate management structure for implementing environment policy and socio-economic issues and the capacity building required in this regard.	A full-fledged Environment Department, headed by a HoD (Environment) along with a suitable qualified multidisciplinary team of executives which includes Environment, Mining, Excavation, Civil, Survey, Electrical & mechanical, Forestry disciplines executives and technicians has been established in Headquarters. They are also trained in ecological restoration, sustainable development, rainwater harvesting methods etc. At the Area level, one Executive in each area has also been nominated as Nodal Officer (Environment) under General Manager of Area and at Project level, concerned Safety Officer under Project Officer is looking after the environment related jobs and also entrusted with the responsibility of compliance and observance of the environmental Acts/ Laws including environment protection

		<p>measures .The activities are monitored on regular basis at Area and at Head quarters levels. HoD (Environment) at head quarter level, co-ordinates with all the Areas and reports to the Director (Technical) and in turn he reports to the CMD of the company.</p> <p>The team is multidisciplinary and very much motivated under the guidance of company's CMD and Director (Technical) . Further capacity building at both corporate and operating level is being done.</p>
Xlv	Corporate Environment Responsibility.	
(a.)	The Company shall have a well laid down Environment Policy approved by the Board of Directors.	A well defined Corporate Environment Policy has already been laid down and approved by the Board of Directors. This is also posted on BCCL website.
(b.)	The Environment Policy shall prescribe for standard operating process/procedures to bring into focus any infringements/deviation/violation of the environmental or forest norms/conditions.	Complied.
(c.)	The hierarchical system or Administrative Order of the company to deal with environmental issues and for ensuring compliance with the environmental clearance conditions shall be furnished.	A hierarchical system of the company to deal with environmental issues from corporate level to mine level already exists.
(d.)	To have proper checks and balances, the company shall have a well laid down system of reporting of non-compliances/violations of environmental norms to the Board of Directors of the company and/or shareholders or stakeholders at large.	Being complied.
B.	<u>General Conditions</u>	
i	No change in mining technology and scope of working shall be made without 'prior approval of the Ministry of Environment and Forests.	Being followed.
ii	No change in the calendar plan of production for quantum of mineral coal shall be made.	Being followed. Production is being done well within the peak production capacity as per EC.
iii	Four ambient air quality monitoring stations shall be established in the core zone as well	The work order for establishing air quality monitoring stations and for monitoring of ambient environment

	as in the buffer zone for PM10, PM2.5, SO2 and NOx monitoring. Location of the stations shall be decided based on the meteorological data, topographical features and environmentally and ecologically sensitive targets in consultation with the State Pollution Control Board. Monitoring of heavy metals such as Hg, As, Ni, Cd, Cr ,etc. carried out at least once in six months.	has been issued by BCCL HQ. to Central Institute of Mining & Fuel Research (CIMFR), Dhanbad having CSIR laboratory recognized under the EP Rules.
iv	Data on ambient air quality (PM10, PM 25, SO2 and NOX) and heavy metals such as Hg, As Ni, Cd, Cr and other monitoring data shall be regularly submitted to the Ministry including its Regional Office at Bhubaneswar and to the State Pollution Control Board and the Central Pollution Control Board once in six months. Random verification of samples through analysis from independent laboratories recognized under the EPA rules, 1986 shall be furnished as part of compliance report.	It shall be complied.
v	Adequate measures shall be taken for control of noise levels below 85 dBA in the work environment. Workers engaged in blasting and drilling operations, operation of HEMM, etc shall be provided with ear plugs/muffs.	Being complied
vi	Industrial wastewater (workshop and wastewater from the mine) shall be properly collected, treated so as to conform to the standards prescribed under GSR 422 (E) dated 19th May 1993 and 31st December1993 or as amended from time to time before discharge. Oil and grease trap shall be installed before discharge of workshop effluents.	The work order for establishing monitoring stations and for monitoring of ambient environment has been issued by BCCL HQ. to Central Institute of Mining & Fuel Research (CIMFR), Dhanbad having CSIR laboratory recognized under the EPA Rules. Presently, mine effluent is being monitored through BCCL own Laboratory at HQ.level.

✓

vii	Vehicular emissions shall be kept under control and regularly monitored. Vehicles used for transporting the mineral shall be covered with tarpaulins and optimally loaded.	It shall be complied.
viii	Monitoring of environmental quality parameters shall be carried out through establishment of adequate number and type of pollution monitoring and analysis equipment in consultation with the State Pollution Control Board and data got analyzed through a laboratory recognized under EPA Rules, 1986.	The work order for establishing monitoring stations and for monitoring of ambient environment has been issued by BCCL HQ. to Central Institute of Mining & Fuel Research (CIMFR), Dhanbad having CSIR laboratory recognized under the EPA Rules. Presently, mine effluent is being monitored through BCCL own Laboratory at HQ.level.
ix	Personnel working in dusty areas shall wear protective respiratory devices and they shall also be provided with adequate training and information on safety and health aspects.	Being Complied. A separate full fledged Human Resource Development Deptt. is conducting regular training programme on these issues. Apart from this Vocational Training Centers are existing in the Area which provides periodical training on the safety and occupational health issue to each of the workers working in the mines.
x	Occupational health surveillance programme of the workers shall be undertaken periodically to observe any contractions due to exposure to dust and to take corrective measures, if needed an records maintained thereof. The quality of environment due to outsourcing and he health and safety issues of the outsourced manpower should be addressed by the company white outsourcing.	Initial Medical Examination (IME) and Periodical Medical Examination (PME) of all the personnel of the Area is carried out at Bhuli PME Centre, Bhuli, Dhanbad as per the Statutes and guidelines of Director General of Mines Safety (DGMS).
xi	A separate environmental management cell with suitable qualified personnel shall be set up under the control of a Senior Executive, who will report directly to the Head of the company.	A full-fledged Environment Department, headed by HoD (Environment) along with a suitable qualified multidisciplinary team of executives which includes Environment, Mining, Excavation, Civil, Survey ,Electrical & mechanical, Forestry disciplines executives and technicians has been established in Headquarters. They are also trained in ecological restoration, sustainable development, rainwater harvesting methods etc. At the Area level, one Executive in each area has also been nominated as Nodal Officer (Environment) under General Manager

		<p>of Area and at Project level, concerned Safety Officer under Project Officer is looking after the environment related jobs and also entrusted with the responsibility of compliance and observance of the environmental Acts/ Laws including environment protection measures .The activities are monitored on regular basis at Area and at Head quarters levels. HoD(Environment) at head quarter level, co-ordinates with all the Areas and reports to the Director (Technical) and in turn he reports to the CMD of the company.</p> <p>The team is multidisciplinary and very much motivated under the guidance of company's Director (Technical) and CMD. Further capacity building at both corporate and operating level is being done.</p>
xii	<p>The funds earmarked for environmental protection measures shall be kept in separate account and shall not be diverted for other purpose. Year-wise expenditure shall be reported to this Ministry and its Regional Office at Bhubaneswar</p>	<p>A separate fund under the environmental protection measures has already been allocated.</p>
xiii	<p>The Project authorities shall advertise at least in two local newspapers widely circulated around the project, one of which shall be in the vernacular language of the locality concerned within seven days of the clearance letter informing that the project has been accorded environmental clearance and a copy of the clearance letter is available with the State Pollution control Board and may also be seen at the website of the ministry of Environment & Forests at www.envfor.nic.in.</p>	<p>It has been complied. Advert in local newspaper is enclosed.</p> <p>EC displayed in Notice Board also.</p>
xiv	<p>A copy of the environmental clearance letter shall be marked to concern Panchayat /Zila Parishad, Municipal Corporation or Urban local body and local NGO, if any, from whom any suggestion/representation has been received while processing the proposal. A copy of the clearance letter shall also be displayed on company's website.</p>	<p>Complied.</p>

xv	A copy of the environmental clearance letter shall also be displayed on the website of the concerned State Pollution Control Board. The EC letter shall also be displayed at the Regional Office, District Industry Sector and Collector's Office/Tehsildar's Office for 30 days.	Complied.
xvi	The clearance letter shall be uploaded on the company's website. The compliance status of the stipulated environmental clearance conditions shall also be uploaded by the project, authorities on their website and updated at least once every six months so as to bring the same in public domain. The monitoring data of environmental quality parameter (air, water, noise, and soil) and critical pollutant such as PM10, PM2.5, SO2 and NO _x (ambient) and critical sectoral parameters shall also be displayed at the entrance of the project premises and mine office and in corporate office and on company's website.	Complied.
xvii	The project proponent shall submit six monthly compliance reports on status of compliance the stipulated environmental clearance conditions (both in hard copy and in e-mail) to view respective Regional Office of the Ministry, respective Zonal Office s of CPCB and the SPCB.	Being complied
xviii	The Regional Office of this Ministry located at Bhubaneswar shall monitor compliance of the stipulated conditions. The Project authorities shall extend full cooperation to the office) s of the Regional Office by furnishing the requisite data/ information/monitoring reports.	Shall be complied.
xix	The Environmental statement for each financial year ending 31 March in Form —V is mandated to be submitted by the project proponent for the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules,1986,as amended subsequently, shall also be uploaded on the company's website along	Being complied.

	with the status of compliance of EC conditions and shall be sent to the respective Regional Offices of the MoEF by E-mail.	
6.	The proponent shall abide by all the commitments and recommendations made in the EIA/EMP report so also during their presentation to the EAC.	Agree
7.	The proponent is required to obtain all necessary clearances/approvals that may be required before the start of the project.	Agree
8.	The Ministry or any other competent authority may stipulate any further condition for environmental protection.	Agree
9.	Failure to comply with any of the conditions mentioned above may result in the withdrawal of this clearance and attract the provisions of the Environment (Protection) Act, 1986.	Agree
10.	The above conditions will be enforced inter-alia, under the provisions of the Water (Prevention & Control of Pollution) Act, 1974, the Air (Prevention & Control of Pollution) Act, 1981, The Environment (Protection) Act, 1986 and the Public Liability Insurance Act, 1991 along with their amendments and Rules. The proponent shall ensure to undertake and provide for the costs incurred for taking up remedial measures in case of soil contamination, contamination of groundwater and surface water, and occupational and other diseases due to the mining operations.	It is being complied
11.	The Environmental Clearance is subject to the outcome of the Writ Petition filed by M/S Bharat Coking Coal Limited (BCCL) in response to the closure orders issued by the Jharkhand State Pollution Control Board which is pending in the Jharkhand High Court.	Agree

Andhra Pradesh-500625

Subject : Regarding proposal for "Delineation of Surface Coal Fire and associated Land Subsidence in Jharia coalfield, Jharkhand using satellite based remote-sensing techniques at a cost of Rs 19.70 Lakhs submitted by e-mail on 15.05.2013

D/Sir,

We are in receipt of the aforesaid proposal, sent by email on 15.05.2013, covering two components of the scope of study and subsequent communication by BCCL vide letter no. BCCL/D (T) Op/F-Env/2012/148(A) dated 11.02.2013:

- Part 1:** Coal Fire mapping of Jharia Coalfield using Thermal Infra-red data – for a cost of Rs. 6,70,721=00. The study is proposed to be completed within 8 months and
- Part 2:** Land subsidence mapping of Jharia Coalfield using Interferometric SAR data - for a cost of Rs. 12,98,571=00. The study is proposed to be completed within 12 months.

Competent authority of BCCL has approved both the two components as above. You are therefore requested to submit your invoice for 90% amounting to 17.73 Lakhs, of the cost of the project Rs 19.00 Lakhs at the earliest for placing the work order and releasing the 90% amount.

Thanking you,

Yours faithfully,

HOD (Environment)

Annexure-B

1. Coal Production of the Cluster will be well within the limit for which environmental clearance has been granted.
2. **PROGRAMME FOR OB DUMPING**

Backfilling Programme: (in Mm³)

Year	Gondudih Khas Kusunda OC	East Bassuriya OC	Godhur Mixed	Total
2013-14	1.5	0.15	-	1.65
2014-15	2.0	0.15	-	2.15
2015-16	2.0	0.50	-	2.5
2016-17	2.5	0.50	0.50	3.5
2017-18	2.58	0.50	0.54	3.62

3. GREENBELT DEVELOPMENT PROGRAMME

Plantation Programme(Cluster-VI & VII) :

Year	Decoaled area after back filling		Avenue Plantation along road side		Total area(Ha)	Total No.of saplings
	Area (Ha)	No.of saplings	Area(Ha)	No.of saplings		
'13-'14	-	-	0.4	1000	0.4	1000
'14-'15	1.0	2500	-	-	1.0	2500
'15-'16	1.0	2500	1.0	2500	2.0	5000
'16-'17	2.0	5000	-	-	2.0	5000
'17-'18	2.0	5000	-	-	2.0	5000

4. CSR ACTIVITIES OF BCCL

Bharat Coking Coal Limited (BCCL) is committed to good corporate citizenship and makes constant efforts to build and nurture long lasting relationships with members of the society in general and it's peripheral communities in particular.

BCCL is taking up activities from the HQ level and through its administrative areas for the implementation of CSR activities. For this purpose A CSR cell is functioning which is headed by General Manger(Welfare) under the direct control of Director(Personnel) of the company.

The CSR activities are specific to the village, depending on the need assessed for the people by local Hon'ble M.Ps and M.L.As. Further as suggested by the MOEF Committee, a detailed project specific CSR Action Plan shall be formulated and for this purpose, BCCL has approached TATA INSTITUTE AND SOCIAL SCIENCES, MUMBAI which is also the focal agency of the National CSR Hub. CSR Action Plan shall be formulated for the whole Jharia Coalfield and also project-wise which will include need-based/ stakeholder base line survey, monitoring, evaluation, auditing, etc.

The CSR activities presently being done by BCCL

- To meet the acute shortage of drinking water in peripheral villages' drinking Water is provided through deep borewells, tubewells, pumps/motors, in the peripheral villages of BCCL. Water supply through pipeline, through water tanker is provided also to the villages.
- **Education:** BCCL adopts a multi-pronged approach to promote quality education in backward areas. The measures taken by BCCL comprise Construction, Extension, and Renovation of school buildings etc are done to promote quality education in the nearby villages. BCCL is Extending financial aid for educational facilities to 83 nos. Private Committee Managed schools. Measures are taken to promote women literacy and carrier development.
- **Health Care:** BCCL Conducts medical/health camps for dwellers of peripheral villages for rendering free medical consultancy. CSR Clinics, wellness clinics, artificial limbs centers are organized for the benefit of the needy section of the society.. Mobile medical vans are deployed as special arrangement for medical services. AIDS awareness camps are organized as special drive to develop awareness and to render free consultancy. In Kusunda Area many medical /health camps in peripheral villages and in collieries and various awareness programmes have already been conducted, and is being conducted regularly by Area Medical Team.

- **Occupational health:** awareness programme are organized.
- **Other Welfare Activities:** this includes Construction / renovation of Community Halls, construction / repair of roads, construction of Health-sub centres, construction of drain, construction of Chhat Ghat in the ponds, Construction of Boundary wall, providing Choupal for community gatherings, etc.
- **Mashla Chakki centres :** Mashla Chakki centres are established with machines to promote self employment.
- **Blankets:** During winter, Blankets are distributed among poor section of the society.
- **Sports & Cultural:** Various activities are organized to propagate sports and cultures. Sports/games items and instruments are also provided with play ground.
- **Village adoption:** Lahbera – A SC/ST village nearby Dhansar Mine has been adopted for its all round development and a number of development activities have been carried out including school, health care and Ambulance facility, Mashla Chakki Centre, Community Centre, Play ground, etc.
- **Skill development training programs by BCCL for Project Affected persons, fire affected persons and nearby communities:** Bharat Coking Coal Limited (BCCL) has signed a Memorandum of Understanding with Construction Industry Development Council (CIDC), New Delhi, a body promoted by Planning Commission, on 20.03.2012 for employment linked training program in the Construction Sector for poor and downtrodden people of the Jharia coalfield including project affected persons and fire affected people. BCCL in coordination with the CIDC is identifying the project affected persons to undergo the required training programs to be conducted by CIDC.

In this regard BCCL will bear the training cost @ Rs.42960/ per candidate which includes all expenses including lodging and boarding and after training the CIDC has to ensure a minimum of 75 % of sustainable placement for a period of six months. In case of placement below 75%, pro rata payment is to be made. All training are mandatorily residential. In the year 2012-13 5000 youths will be trained and in the subsequent years no. Of trainees will be scaled up @ 15% per annum.

Handwritten signature and initials at the bottom left of the page.

IN KUSUNDA AREA :

A lot of CSR activities has been done in the peripheral villages in the field of medical and civil and welfare and proposals for doing many activities are under process.

Health Campaigning at surrounding villages by MMV (Mobile Medical Van) :

<u>Year</u>	<u>No. of MMV</u>	<u>Beneficiaries</u>
2012-'13	301	13627
2013-'14 (upto Oct'13)	251	9313

Special Health Camps & Wellness Clinics

<u>Year</u>	<u>No. of camps</u>	<u>Beneficiaries</u>
2012-'13	20	2173
2013-'14 (upto Oct'13)	11	931

In last eight months some civil work have been completed and some work are under process/
proposal under CSR Activity :

- 32 nos. of Solar Lights have been provided at surrounding villages of Kusunda Area
- Construction of Community Hall Centre at Kurmidih Basti has been done
- Drilling of Bore hole for submersible pump at Harijan Basti under proposal
- Construction of pucca drain at 4 no.Colony under proposal
- Provision of water pipe line from filter plant to Munda Colony, Godhur under proposal
- Construction of Ghat around pond & drain at Lahbera Village under proposal
- Construction of three rooms at Jivan Joyti School including water supply under proposal
- Construction work of compound wall of Lahbera School at Dhansar has been awarded
- Work for deepening of pond Lahbera Basti, Dhansar has been awarded etc.

Financial assistance to Private Committee managed Schools in villages during 2013-'14(upto Oct'13) :

<u>Name of School</u>	<u>Amount (Rs.)(fig.provided by Area Finance Deptt.)</u>
L.P.School, Dhansar	63000.00
Vikash H.A.School, Bassuriya	120000.00
Bal Vikash P.V.Industry CO	30000.00
Sanjay Gandhi S.M.V.,Godhur	180000.00
Gandhi M.K.E.S.E.,Bassuriya	93000.00
Madhya Vidyalay, Kurmidih	192000.00
Bassuriya Vidyalay,Bassuriya	123000.00
Shishu Vikash M.Vidyalay	90000.00
J.N.Vidyalay, Gondudih	1500.00
TOTAL :	892500.00

Annexure-C

Plantation- At Gondudih- Khas Kusunda Colliery Plantation has been done by DFO, Dhanbad at about 10.5 Ha area of OB dump. 500 no. plants have been planted as Avenue plantation and further 500 no. of plants will be planted soon as Avenue plantation in road side by DFO, Dhanbad.

ECOLOGICAL-RESTORATION PLAN OF BCCL

YEAR	CLUSTER VI & CLUSTER VII(Part)
2012-13	--
2013-14	2.00
2014-15	6.00
2015-16	6.00
2016-17	6.00
Total	20.00

Annexure-D

1. ANALYSIS REPORT OF MINE DISCHARGE WATER

ANNEXURE--- E

STATUS OF JHARIA MASTER PLAN DOVETAILED WITH ENVIRONMENT CLEARANCE CONDITIONS

Rehabilitation and Fire control measures

Socio-economic Survey :

Out of total 595 nos. of fire affected / subsidence prone sites / areas to be surveyed, CIMFR, ISM, whiz Mantra and JRDA have completed demographic / socio-economic survey of 369 sites in which 39502 families have been identified. Photo Identity Cards (PICs) are completed for 24076 families till 31.05.2013.

About 35 nos. Fire affected areas in Kusunda Area are under JRDA Survey.

Accommodation provided in Satellite Township:

- 2352 houses have been constructed in Belgoria rehabilitation Township "Jharia Vihar" in which 1161 families have shifted till 31-05-2013. Progress is very slow since July, 2012.
- 1137 nos. of affected families have each been handed over cheque amounting to Rs.10,000/- as shifting allowance.
- 1041 nos. of families have been given 1st & 2nd payment of minimum wages of 250 days, whereas 299 nos. of families have been given 3rd & 4th last instalment totalling to 500 days.
- At East Bassuriya permanent rehabilitation site, 600 quarters are in construction. Out of 600 , 278 qtrs. have been allotted of employees residing in coal bearing zone of diff. collieries under Kusunda Area.
- In temporary rehabilitation site at decoaled zone of East Bassuriya about 13 PAF have been shifted.

JRDA is unable to shift non-BCCL persons/ encroachers from endangered and fiery zones under the approved Master Plan, due to non-availability of houses / land for rehabilitation. BCCL has decided to temporarily shift those persons (whose socio-economic survey has been done by JRDA) to 'Reclaimed Sites' in various collieries of BCCL. For the purpose, BCCL has already selected 47.84 Acres land in non-fire zones

Transfer of land to JRDA by BCCL:

86.44 acres of vacant land in Bhuli Township and 849.68 acres of non-coal bearing land in and around Belgoria Township belonging to BCCL have been identified for developing new Townships by JRDA. NOC for transferring the land to JRDA has been given by MoC which has been communicated to JRDA vide letter no. D(T):OP:F-24/11/502 dated 30.09.11/3.10.11. BCCL has provided all the required mouza plans with details to JRDA vide letter no. 944, dated 16.12.2011 and No.964, dated 17.12.2011 In response to letter no.365, dated 27.5.13 issued by DC-cum-Project Director, JRDA, BCCL proposed one time dispensation for release of 372 employments for physical possession of entire land for which NoC has been given to JRDA. Said proposal is agreed by BCCL Board and also forwarded to CIL for obtaining permission from MoC, Govt. of India.

Welfare Programme :

Various welfare training and employment generation programmes are being organised with the help/aid of Nari Shakti of BCCL for rehabilitated families at Belgoria Townships viz.

- (i) Distribution of 14 Rickshaws, 8 business tri-cycles, 8 tricycles, 6 wheel chairs and 5 baishakhis to the needy persons.
- (ii) 1500 blankets were distributed in winter seasons.
- (iii) 80 women are getting stitching training in 4 batches.
- (iv) Adult education programme are also being conducted. 60 persons are covered uptill now.
- (v) A Self Help Group comprising of ladies of nine families headed by Kanak Lata Singh is making paper pouches from the donated old newspapers of BCCL township at Belgoria. They prepare about 250 kg. paper pouches in the month and sell at the rate of Rs.20/- per kg earning Rs.5000/- per month.
- (vi) 2000 study materials viz. note-books, pencils, pens, erasers have recently been distributed to the rehabilitated students to promote education amongst them.

An MoU has been signed on 20.03.2013, followed by an agreement on 15.04.2013 between BCCL and CIDC for engaging Construction Industry Development Council (CIDC), New Delhi for employment linked training programme in construction sector etc. for project affected persons (PAPs) using CSR funds. It is a programme that around 5000 (Five thousands) persons shall be given training through CIDC in the year 2013-14. The MoU and Agreement have been approved by BCCL Board of Directors

Status of fire dealing :

Under Master Plan, total 28 nos. of Fire schemes have been proposed in Phase-I to be formulated / prepared for dealing with 67 fires sites spread in 41 collieries. Till date 11 fire schemes have been approved by Board and implemented, out of which 4 nos. of schemes have been completed and rest are under different stages of execution. Three more fire Schemes are under preparation at CMPDIL. Further for expediting the fire dealing process, excavation methods has been resorted to by deploying Hired HEMM at various mines of BCCL. For this, the expenditure is being made from its own revenue budget.

BCCL approached NRSC for conducting fresh survey of fires and subsidence by remote sensing methods in January 2013. NRSC has sent the proposals for coal fire mapping of Jharia coalfield using thermal infra-red data for the cost of Rs.6,70,721.00 and land subsidence mapping of Jharia coalfield using Inter-ferometric SAR data for a cost of Rs. 12,98,571.00. As an advance action, BCCL has approved both the proposals and requested NRSC to submit invoice for Rs. 17.73 lacs (90% of the total cost) vide letter no.BCCL/HOD (Env) /F-MP/610 dated 21.05.13.

A MoU is to be entered with the NRSC for start of the work .For this purpose, duly signed MOU from our end has been sent to NRSC for necessary processing at their end and to start the work immediately. Meanwhile NRSC is mobilising the scientists and other preparatory work to start the survey.

✓

Against the earmarked amount of Rs.2311 crores, an amount of Rs.16 crores has been disbursed to BCCL for control of fires. Now an amount of Rs.2295 crores remains under the approved Jharia Master Plan unspent for fire control measures.

It is proposed by BCCL vide letter no.BCCL/CMD/Sr.ES/F-2(A)/12/274, dated 2nd Aug., 2012 that this amount of Rs.2295 crores can be re-appropriated till the RE crosses the amount for facilitating the following various activities for implementation of rehabilitation of families from endangered areas as per the approved Master Plan:

- (a) in enhancing the size of the rehabilitation houses / carpet area from Indira Awas Yojana type to JNNURM housing norms.
- (b) in meeting the financial impact on account of increase in the number of endangered families after actual demographic survey.
- (c) in meeting the appreciation of price of land acquisition etc.

This will enable in accelerating in the implementation of Jharia Master Plan.

Under Master Plan, Fire Patch of V/VI/VII/VIII seam at Gareria Section of East Bassuriya, Kusunda Area have been filled up with about 1,70,000 cu.m of mitti, rest will be filled up by quarry OB of Patch A of East Bassuriya OC.

At Kusunda Colliery, total firey coal are being digged out as a measure of fire dealing.

For control and monitoring of threat of subsidence at fire affected area within Godhur lease hold special attention has been made by mine management. Director of CIMFR, Dhanbad has been requested for scientific study for formulating time schedule of work to prevent propagation of fire. JRDA has completed survey the basties at fire affected area for evacuation & rehabilitation of the inhabitants under Jharia Action Plan and has prepared approx.250 no. Identity Cards. Colliery Management have allotted quarters at other safe place to 41(approx.) employees residing at/near fire affected area for their early evacuation. Besides, one special team headed by senior mine official has been made at Colliery for inspection/supervision of the lease hold area of Godhur for early detection of any pot hole, fume and report to mine management for early action.

KUSUNDA AREA

CSR Activities to be taken up in 2013-14:

Colliery/Unit: Bassuriya

- | | | |
|---|--|--------|
| 1 | Drilling of bore holes for submersible pump near Harijan Basti, 14 " dia, 45mtr.length | 1no. |
| 2 | Const. of switch room for submersible pump near Harijan Basti. | 01 no. |

Colliery/Unit: Godhur

- | | | |
|---|--|---------|
| 1 | Construction of pucca drain from NH-32 to 4 No. colony | 150m |
| 2 | Making of rest shelter near ACM room | 01no |
| 3 | Provision of pipeline from filter plant to Munda colony Godhur coll. | 200mtr. |
| 4 | Changing of pipeline of 3 No. and 4 No. colony Godhur | |
| 5 | Construction of drain from filter plant to 6 No. and 4 No. colony | 300mtr. |

Colliery/Unit: Kusunda

- | | | |
|---|--|-------|
| 1 | Const. of Rest Shelter for un-organised labours. | 01no. |
|---|--|-------|

Colliery/Unit: East Bassuriya

- | | | |
|---|--|-------|
| 1 | Const. of main drain from CISF camp to 1 no. colony. | |
| 2 | Cons of drain at 4 no colony Block no NHR,NHG | 200 m |
| 3 | Cons of drain at 2 no colony | 260m |
| 4 | Const of durga mandap in non coal bearing area. | 1 |
| 5 | Const of Kali mondir at non coal bearing area. | 1 |

Colliery/Unit: Dhansar

- | | | |
|---|---|--------|
| 1 | Const. Of Ghat around the pond & drain at Lahbera.. | 01no. |
| 2 | Const. of toilet for male & female at workshop | 2 nos. |
| 3 | Const. of Canteen with rest shelter at VOCP, Dhansar Colliery | |
| 4 | Const. of Drain at Bright Kusunda Sweeper Patti at Dhansar colliery | |
| 5 | Deepening of Pond at Lahbera Basti | |
| 6 | Construction of Compound Wall around Lahbera Basti | |

Colliery/Unit: GKKC

- | | | |
|---|---|---|
| 1 | Const. of Chatghat at Chhoti bowa pond, GKKC, near new shiv mandir. | 1 |
| 2 | Cons. of 3 room at Jivan Joyti School including water supply | |

✓
X

Area Unit

- 1 Drilling bore hole at Jawahar Nagar Officer's Colony, Matkuria.
- 2 Extension of Matkuria club building at Jawahar Nagar Colony, Matkuria.
- 3 Const. of boundary wall around community centre with toilet room at Kharikabad colony.
- 4 Const. of pucca drain from Godhur Basti to Panchyat Bhawan,
- 5 Effluent Treatment Plant at Dhansar workshop and Area Auto workshop
- 6 Water meter installation at different collieries and colonies
- 7 Rain Water Harvesting at Jawahar Nagar Colony & Coal Board Colony etc.
- 8 Const. of drain back side of Rahul Udyog near B type Quarter under Kusunda Area.
- 9 Providing & fixing pipe line at different colony of Kusunda Area on non coal bearing area.
- 10 Drilling bore hole at Kusunda Area under upgradation colony works.

In Addition-

- Construction of community hall at Renguni village.
 - Fitting of gate and grill at Shakti Mandir, Bauwakala.
 - Repairing of Durga Mandap at Basseriya.
 - RCC roofing of 4 room at Jeevan Jyoti Leprosy Colony.
 - Repairing of Well at Tiwary Basti.
 - Construction of Community Lavatory at Tiwary Basti.
 - Deep boring in Basseriya (near school).
 - Construction of Chabutra and Boundary wall of Gram sthan, Kurmidih.
 - Construction of Chabutra and Boundary wall at Surjahi Puja Akhara, Kurmidih.
 - Renovation of Pond at Dharjori village.
 - Construction of Shamshan Ghat at Karijore.
 - Installation of Solar Light(25 nos.) at different places under Kusunda Area.
 - Construction of Community Hall at Coal Board Colony Matkuria
-
- 10

KUSUNDA AREA

Construction of Pucca Transportation Road

In Kusunda Area about 800 mtrs. Pucca coal transportation road have been made.

Embankment at Kari Jore have been made and maintained with marking of water level. Toe walls and garland drains are maintained at OCPs.

Pucca Transportation Road -proposed for 2013-'14 :

<u>Location</u>	<u>Length</u>	<u>Type</u>
1.from Godhur Colliery Office to KDS K Siding	1.50 KM (L)X7.0 mtr.(W)	Black Top
2. from East Bassuriya Indira Chowk to Railway fly over	0.80 KM (L)X 5.0 mtr.(W)	"

Construction of drain, water reservoir and sprinkling system- proposed for 2013-'14 :

	<u>Estimated cost (Rs. In lakh)</u>
1. Const of water reservoir at surface for spraying at working faces at Bassuriya -- 1 no.	2.50
2. Const of RCC drain by side of washing platform to dispensary site at VOCP	4.00
3. Water sprinkling system at KDS- K siding	30.00
4. Const. of water storage tank with pump room for sprinkling system at KDS-K siding under Area.	3.50
5. Water sprinkling system at KDS- II siding	30.00

COMPLIANCE OF DHANBAD ACTION PLAN

(1) Covering of loaded transport vehicles

It has been complied. The clause of covering of loaded coal transport vehicle has been incorporated in the transport agreement/ contract.

(2) Coal transport roads shall be made pucca

In Kusunda Area about 800 mtrs. Pucca coal transportation road have been made.

Pucca Transportation Road -proposed for 2013-'14 :

<u>Location</u>	<u>Length</u>	<u>Type</u>
1.from Godhur Colliery Office to KDS K Siding	1.50 KM (L)X7.0 mtr.(W)	Black Top
2. from East Bassuriya Indira Chowk to Railway fly over	0.80 KM (L)X 5.0 mtr.(W)	"

(3) All drillings to be done with dust containment and suppression systems. Sprinklers will be installed including at all coal stock & sidings

Complied. Water sprinkling at all coal stock and sidings is being done by mobile water tankers and through pipe lines. Proposal for installation of fixed sprinklers at sidings are under process.

DUST EXTRACTION : Regarding drilling it has already been complied in all mines. Drill machines are having OEM fitted DUST EXTRACTION system

MOBILE SPRINKLERS

Sl. no.	Mine	Haul road length in Km	No. of mobile sprinklers	Total Capacity(KL)	Trips per day
1	Kusunda/Godhur	2.0-3.0	3	45	9
2	Dhansar/Industry	1.0-1.5	2	24	8
3	Gondudih	1.5-2.0	3	30	9
4	Alkusa	UG mine	1	3	3
5	Ena	1.5-2.0	2	6	8
6	East Bassuriya	1.0-1.5	1	12	3

(4) Water bodies shall be created by mine discharge water

Area	Completed	Under progress	Proposed
Kusunda	Diverted to 02 community ponds	Diverted to 03 community ponds	Schemes similar to Khonatih and Behrakuder Villages

(5) The direction of surface run-off of the premises of collieries shall be diverted to created water bodies.

Creation of water bodies in coal bearing area will pose safety threats to nearby mine and it will be violation of mines act. This will also create grave danger of inundation of the adjacent mines since the mines are 100 years old and interconnected with each other. So this action cannot be complied.

However to catch run-off water in colonies proposal for Rain water Harvesting in two colonies is under process

(6) Dealing of mine fires

A Master plan for Dealing with fires and subsidence and rehabilitation in the Leasehold of BCCL has been approved by Govt. of India vide letter no- 22020/1/2005-CRC dated 12 08 09 with estimated cost of Rs. 7112.11 crores. In fire patch of V/VII/VIII seam of Gareria Secn. at East Bassuriya about 1,70,000 cu.m. mitti has been filled, rest will be filled by quarry OB of Patch A.

In Kusunda OC, fire patch is being dug out for the purpose of dealing with fire and combustible materials are extracted out to save the coal from burning and to stop further spread of the fire. Once the fiery coal is dug-out/excavated there will be no more chance of re-starting of fresh/ spreading of fire into other areas.

At Alkusa mine, measures have been taken as per CMR'57 and DGMS Guidelines to control fire.

(7) The waste water shall be passed through oil separator-cum-filtration system

-- Proposed by 2013-14
