बीसीसीएल ने क्षमता विस्तार की दिशा में बढ़ाए कदम; 15 MTPA ब्लॉक-E परियोजना और भोजूडीह वाशरी के माध्यम से उत्पादन में होगी वृद्धि

धनबाद: भारत कोकिंग कोल लिमिटेड (बीसीसीएल) ने क्षमता विस्तार की दिशा में अहम कदम उठाया है। इन में उत्पादन क्षमता विस्तार, मूल्यवर्धन तथा कोकिंग कोल क्षेत्र में कंपनी की दीर्घकालिक स्थिति को सुदृढ़ करने से संबंधित महत्वपूर्ण पहलें शामिल हैं।

प्रमुख क्षमता विस्तार – ब्लॉक-E (15 एमटीपीए)

कंपनी के दीर्घकालिक विकास कार्यक्रम के अंतर्गत 15 एमटीपीए क्षमता वाली ब्लॉक-E परियोजना के लिए टेंडर प्रक्रिया चालू वित्तीय वर्ष के भीतर निर्धारित की गई है। परियोजना के कमीशन होने के पश्चात बीसीसीएल के कुल उत्पादन में लगभग 15 प्रतिशत की वृद्धि होने की अपेक्षा है। इससे कंपनी का कोकिंग कोयला पोर्टफोलियो और अधिक मजबूत होगा तथा घरेलू इस्पात क्षेत्र की बढ़ती मांग को पूरा करने के लिए दीर्घकालिक आपूर्ति व्यवस्था को बल मिलेगा।

भोजूडीह वाशरी का संचालन (2 एमटीपीए)

2 एमटीपीए क्षमता वाली भोजूडीह वाशरी का सफलतापूर्वक संचालन प्रारंभ कर दिया गया है। यह वाशरी आगामी दो से तीन सप्ताह के भीतर अपनी पूर्ण उत्पादन क्षमता पर पहुँचने की अपेक्षा है। इसके परिचालन से कंपनी के वाॅशड कोयले के उत्पादन में वृद्धि होगी, बेहतर मूल्य प्राप्ति सुनिश्चित होगी तथा डाउनस्ट्रीम इस्पात क्षेत्र को गुणवत्तापूर्ण वाॅशड कोकिंग कोयले की आपूर्ति में सहायता मिलेगी।

इन प्रमुख व्यावसायिक पहलों के माध्यम से भारत कोकिंग कोल लिमिटेड परिचालन दक्षता बढ़ाने, उत्पादन क्षमता में विस्तार करने और अपने मुख्य कोकिंग कोल व्यवसाय को सुदृढ़ करने के लिए प्रतिबद्ध है। कंपनी देश की बढ़ती औद्योगिक एवं अवसंरचना आवश्यकताओं को समर्थन देने की दिशा में निरंतर कार्य कर रही है।

Press Release

BCCL Driving Growth Across Mining & Coal Beneficiation

Dhanbad: In a leap forward in capacity expansion, Bharat Coking Coal Limited (BCCL), is announcing key business updates. The updates reflect BCCL's continued focus on capacity augmentation, operational efficiency, and strengthening its core coking coal business.

Major Capacity Expansion – Block-E (15 MTPA)

As part of BCCL's long-term growth strategy, tendering of the 15 MTPA Block-E project is scheduled within the current financial year. This project will add significant production capacity to the company. Upon commissioning, the project is expected to enhance BCCL's overall production by approximately 15 percent. This expansion will significantly strengthen the company's coking coal portfolio and further consolidate its long-term supply position, particularly in meeting the rising demand from the domestic steel sector.

Operationalisation of Bhojudih Washery (2 MTPA)

In another major development, the 2 MTPA Bhojudih Washery has been successfully operationalised. The washery is expected to reach its peak capacity within the next two to three weeks. With this addition, BCCL's washed coal output is set to increase, leading to improved realisations and enhanced value addition. The operationalisation of the washery will also support downstream steel sector demand by ensuring the availability of quality washed coking coal.

The company remains committed to enhancing production capabilities and supporting India's growing industrial and infrastructure requirements.

Bharat Coking Coal Limited's post

BCCL Driving Growth Across Mining & Coal Beneficiation

BCCL continues to advance its growth roadmap with decisive capacity augmentation initiatives. The 15 MTPA Block-E project is scheduled for tendering within the current financial year. Upon commissioning, Block-E is expected to enhance BCCL's overall production by nearly 15%, substantially reinforcing its coking coal portfolio and strengthening its long-term supply capabilities for the steel sector.

In parallel, the 2 MTPA Bhojudih Washery has been successfully operationalised and is expected to achieve peak capacity within the next 2–3 weeks. This addition will enhance washed coal output, improve realisations and deepen value addition across the coal value chain, reaffirming BCCL's commitment to efficiency and sustainable growth.

The graphic features a yellow background with a blue circle on the left. On the right, there is a photograph of a large pile of coal with a conveyor belt system. The text 'BCCL Driving Growth Across Mining & Coal Beneficiation' is written in blue. In the top left corner, there is a logo for the Ministry of Coal. In the top right corner, there is a BCCL logo.

Tendering of the **15 MTPA** Block-E project is scheduled within the current financial year.

The project will increase BCCL's production by approximately 15%.
