Product Details

#	Item Description	Category Name	Model	Ordered Quantity	Unit	Price (Inclusive of all Duties and Taxes in INR)
1	AMX X Ray Machine (300 mA) with High frequency generator	X Ray Machine (300 mA)	DIGITONE 300	1	pieces	874,900
Total Order Value (in INR)					874,900	

Consignee Detail

S.No	Consignee	Item	Quantity	Expected Delivery Date		
1	Alok Kumar - Landline kul.b0478@nic.in Depot Officer, Central Store, Ekra, BCCL, Post Office- BANSJORA, Dhanbad, Jharkhand-828101., DHANBAD, JHARKHAND-828101, India	AMX X Ray Machine (300 mA) with High frequency generator	1	27-Feb-2020		

Product Specification for AMX X Ray Machine (300 mA) with High frequency generator

Specification	Sub-Spec	Value	
	Conformity to Certification	CDSCO/AERB	
	Certification number and date	UP-21498-MF-XRE-001 dt. 24-04-2017	
	Type test approval from AREB required	Yes	
Standards	AREB approval certificate number of Particular Model	99-TA-810	
	Confirmity to manufacturing standards	Both ISO 13485 and ICMED 13485	

	Conformity to safety standards	IEC 60601-2-54 or BIS equivalents
	Purpose	For Radiographic examinations
	Type of frequency generator	High frequency generator
	Frequency generator output in kW	40
	KVP range in KV	40 -125
	Current output	300 mA or more at 100 kV
	Provision of Anatomical programming radiography	Yes
	Over loading protection	Yes
	X-ray tube positioning	Floor Mount Tube stand
	X ray tube should be high speed rotating anode and must have dual focus	Yes
	Tube rotation in degree	120
	Size of large focal spot in mm	Upto 2 mm
	Size of small focal spot in mm	Upto 1 mm
	Anode Rotation Speed (minimal) per minute	3200
	Permanent Filtration	0.9 mm Al / 75 kV
	Anode heat storage capacity (min)	140 kHU or more
	Heat dissipation rate in HU/Sec	670
	Automatic exposure control device provided	Yes
	Maximum Exposure time in milli second	upto 15
	Digital display for KVP & mAs provided	Yes
	Range of tube movements in vertical planes in cm	250
	Range of tube movements in longitudinal in cm	250
	Range of tube movements in lateral planes in cm	250
	Electromagnetic brakes with fully counter balanced mechanism for tube movement	Yes
	Facility to display tube angulation	Yes
	Centering devices to be provided	Yes
	Maximum source to image distance (SID) in vertical position in cm	150
	Maximum source to image distance (SID) in horizontal position in cm	110
	Collimeter rotation in degree	±180
Performance	Multileaf collimator having halogen lamp/bright light source, with auto shut off provision of the light, should be available	Yes
Parameters	Minimum intensity of light field lamp	?150 lux
	Full coverage size at a 100 cm SID(collimeter size) with ± 5 percent tolerances	430 x 430
	Type of table provided	Floating table top
	Table top material with low attenuation and scratch resistant surface	Carbon fiber
	Table Length in mm with ± 1 percent tolerances	2360
	Table Width in mm with ± 1 percent tolerances	760
	Table Height in mm with ± 1 percent tolerances	750
	System should have longitudinal and horizontal table top movements	Yes
	Table should have provision for lateral imaging, without patient movement	Yes
	Range of movements for the table	Transverse movements of + 10cm or more & Longitudinal movements+ 40 cm with

Facilities of height adjustments Maintum Patient weight supported by table in kg Foot avoices for adjusting longitudinal/side to aside movements, looking, and light adjustment Movable Grid with gold ratio Anti-collision and safety devices provided Counterbalanced, adjustable height, wall and floor mounted, ventical Bucky Yes SID range of radiographic application including chest radiography in mm 5000 to 1800 Provision of doing chest radiography without grid Power supply Lead lining for doos Number of installations of the X-ray machines in Central /Satet/PSU Cont Hapitals (Note: Seller should furnish a performance certificate of the device to the buyer if demanded after pacement of order) QEM and retailed (if supplier is re-seller) shall ensure uninterrupted availability of all spares for 10 years Avoilability full free faulity for technical support maintenrupted availability of all spares for 10 years Avoilability of full free faulity for technical support maintenrupted availability of all spares for 10 years Avoilability of full free faulity for technical support maintenrupted availability of all spares for 10 years Avoilability of full free faulity for technical support maintenrupted availability of all spares for 10 years Avoilability of little faulity for technical support maintenrupted availability of all spares for 10 years Comprehensive Warranty in Years 5 Pasient fairing beits and compression device (for performing excelory urography, etc) Yes Lead Aprons - Full body and Skint type 2 No cach (0.5pb) Thyroid shields supplied 2 Conditional Fornete supplied 2 Wall mounted shall for supplied Yes Lead approx - Full body and Skint type Thyroid shields supplied Yes Conditional Fornete supplied Additional The Principal Manufacturer must have direct Presence/approved service center in India Copies of all calibration and test reports to be submitted to the poet on emand at time of supplies Copies of all calibration and test reports to be submitted to the Up OEM or authorized ap			electromagnetic brakes

Corrigendum

1. Extended Upto: 2019-12-09 17:00:00

Terms and Conditions

1. Special terms and conditions

Comprehensive warranty

Comprehensive warranty shall include preventive maintenance including calibration as per technical/ service /operational manual of the manufacturer, service charges and spares,. During the warranty period commencing from date of the successful completion of warranty period, Service personnel shall visit each consignee site as recommended in the manufacturer's technical/ service /operational manual, at least once in six months. warranty shall not be including the consumables .Further there will be 98% uptime warranty during warranty period on 24 (hrs) X 7 (days) X 365 (days) basis, with penalty, to extend warranty period by double the downtime period.

Service centres

Details of Service outlets in India to render services for equipment to be furnished to buyer/consignees with complete address ,telephone numbers, e mails etc at time of making the supplies .It shall be the responsibility of seller to ensure that authorized service centres are available to cater to the areas where supplies are made within reasonable distance from where the service calls can be handled .Details of toll free numbers for service call and online registration of service requests also to be provided buyer/consignee at the time of supplies.

Source of supply

It shall be responsibility of seller to provide Documents regarding source of equipments such as copy of Performa invoice or any other documents to establish that the products supplied are manufactured by OEM indicated and sourced from them.

· Packing and Marking

Medical equipments being very delicate and sensitive packing for the goods should be strong and durable enough to withstand transit including transhipment (if any), rough handling, open storage etc. without any damage, deterioration etc. .The size, weights and volumes of the packing cases, remoteness of the final destination of the goods, availability or otherwise of transport and handling facilities at all points during transit up to final destination,. Quality of packing, the manner of marking within & outside the packages and provision of accompanying documentation shall take in to consideration the type of medical equipments being supplied. The accessories shall be suitably labelled and packed .Each of the package shall be marked on three sides with indelible paint of proper quality: indicating contract number and date, brief description of goods including quantity. Packing list reference number, country of origin of goods and any other relevant details.

Spare Parts

Seller shall provide materials, information etc. pertaining to spare parts manufactured and supplied by the OEM. It shall be ensured that the required spares are available for purchase at least for 10 years from date of supplies. In case due to any reasons the production of the spare parts is discontinued sufficient advance notice should be given to the buyer/consignee before such discontinuation to provide adequate time to purchase the required spare parts etc. Further, OEM and their service centres/dealers shall carry sufficient inventories to assure ex-stock supply of consumables and spares for the equipments so that the same are available.

OEM or reseller shall always accord most favoured client status to the buyer/consignee and shall give the most competitive price for spares and consumables of its machines/equipments supplied.

· Installation, Training, Manuals

Seller shall be responsible to carry out Installation & commissioning, Supervision and Demonstration of the goods. They shall provide required jigs and tools for assembly, minor civil works for the completion of the installation and Training of Consignee's representatives for operating and maintaining the equipment and Supplying required number of operation & maintenance manual for the goods. In case the category parameters are specifying any requirements regarding the installations, training and manuals the same shall also be applicable.

Electrical safety checking

Sellers are required to make sure that they furnish the list of equipments for carrying out routine and preventive maintenance to buyer/consignee. They should make sure to periodically check the electrical safety aspects as per BIS Safety Standards or equivalent. In case they do not have required equipment for such testing should ensure that the equipments checked for electrical safety compliance through labs with facilities for such checking during every preventive maintenance call.

• Software All software updates should be provided free of cost during warranty period.

2. General Terms and Conditions

- 2.1 This Contract between the Seller and the Buyer, is for the supply of the Goods and/ or Services, detailed in the schedule above, in accordance with the General Terms and Conditions (GTC) as available on the GeM portal (unless otherwise superseded by Goods / Services specific Special Terms and Conditions (STC) and/ or BID/Reverse Auction Additional Terms and Conditions (ATC), as applicable
- 2.2 Terms of delivery: Free Delivery at Site including loading/unloading. In respect of items requiring installation and / or commissioning and other services in the scope of supply (as indicated in respective product category specification / STC / ATC), and the cost of the same is also included in the Contract price.
- 2.3 Delivery period: The Delivery Period/Time shall be essence of the Contract and delivery must be completed not later than such date(s). Any modification thereto shall be mutually agreed and incorporated in the Contract as per the provisions of the GTC.
- **2.4 Performance Security:** If the Seller fails or neglects to observe or perform any of his obligations under the contract it shall be lawful for the Buyer to forfeit either in whole or in part, the Performance Security furnished by the Seller.
- 2.5 Taxes and Duties: Contract Prices are all inclusive i.e. including all taxes, duties, local levies / transportation / loading-unloading charges etc. Break up of GST shall be indicated by the Seller while raising invoice / bill on GeM. While submitting the bill / invoice Seller shall undertake that the Goods and Services Tax (GST) charged on this bill is not more than what is payable under the provision on the relevant Act or the Rules made there under and that the Goods on which GST has been charged have not been exempted under the GST Act or the Rules made there under and the charges on account of GST on these goods are correct under the provision of that Act or the rules made there under.
